Inaugural Address

To the Honorable City Council of Berlin:

Having been elected by the citizens of this municipality to direct their affairs for the ensuing year, it is only right and proper that before entering upon our several duties, we should take counsel together, and advise with each other as to the best means to faithfully perform our several duties.

I do not hope at this time to go into all the details of the policies that I would like to see prevail during my administration, but if you will bear with me a little while, I will briefly touch upon what I consider to be several serious propositions that will confront us during the year.

We are fortunate to have in our Council a majority of members who are of the same political faith as the Mayor. A situation of this kind is best for an administration, as it places us in a position to assume entire responsibility for our policies and actions, as we have no alibi and must assume entire responsibility. I, on my part, welcome this opportunity and I know that each and everyone of you on your part will welcome it. I want your entire confidence and co-operation in helping me to administer the affairs of this City, and I in turn promise you my confidence and co-operation at all times and in all our works and deliberations. Let us now enter upon our duties with the determination to do what is right by everybody, to give our best efforts for the proper and efficient management of the affairs of this City.

I am happy to again meet the old members of the Council with whom I have had the pleasure of working with heretofore, and I welcome to our official family the new members elected at the last election. I can truthfully say that the City of Berlin now has as fine a body of Councilmen as it has ever had in its history. May your conduct and work also make history for our wonderful City.

FINANCES

I am very sorry to announce to you that the finances of this City are in very bad shape, the worst that I have ever known them to be in my fourteen years' experience with finances in this City. Our

valuation for tax purposes in this City last year was \$20,662,584. Our debt limit fixed by law is 5%; in other words, we are allowed by law to have a City debt of approximately \$1,000,000. Our City debt as shown by the report on the 31st day of January of this year was \$861,300. This leaves the City within \$138,700 of its debt limit. In other words, if an emergency should arise in this City during the year, the City could only borrow \$138,700 to take care of it. You will readily agree with me that this is too close to the danger line when we take into consideration that we could hardly hope to build a schoolhouse for less than \$200,000 or \$250,000.

Two years ago when I was defeated for Mayor, our City debt was \$140,902. The increase therefore during the past two years amounts to \$122,398. Taking into consideration the fact that the City has to pay \$65,000 per year on the bonds, there has been an increase of expenditure in the past two years applicable to the City debt of \$250,398.

This statement may puzzle some of you in view of the fact that an auditor's report shows that the City debt had been decreased \$32,521.54 during the past two years. It may not be amiss for me to explain at this time what the City debt means.

The real City debt is always the bonded indebtedness, upon that basis money is borrowed, and upon that basis only. Taking credit by trick bookkeeping and juggling of figures for old uncollected taxes that may never be collected and for Cash on Hand, January 31, the end of the fiscal year, that will be all expended for City work, is not a criterion of the financial condition of a City. For illustration: In the auditor's report, as of January 31, 1926, credit was given on the City debt by the auditor for \$171,405.13, cash on hand. You will readily understand that this amount was never paid on the City debt, and it may be interesting for you to know that this cash that was on hand January 31 has all been expended by the outgoing administration, and that I am informed by the Treasurer that it will be necessary to raise money in anticipation of taxes for the payment of the weekly payrolls.

I might cite to you numerous other examples, but this one will suffice for us to know that we must base our City debt upon the bonded indebtedness and upon that alone. This debt will be reduced during the coming year by \$65,000, the amount that we are by law required to pay. The City debt cannot be reduced any more, even though we desire to. At this rate, you will readily understand that it will be several years before the City has reduced its debt limit to a safety point.

I recommend that no bonds be floated this year for any purpose.

TAXES

The tax rate in this City is entirely too high, and we must take some means of reducing it. The reduction must be a substantial reduction. In order to accomplish this, it will be necessary for us to practice the utmost economy. No new work should be undertaken unless of absolute necessity. We must scrutinize our appropriations and reduce them to the lowest point possible without interfering with the necessary work of the different departments. High taxes are always bad for the industries of a city, especially where the industries pay such a great proportion of the taxes as they do in this City. We must give them relief by giving them low taxes so that they may be able to progress by being able to sell their products in the market in competition with their competitors who are benefited by low taxes in their several communities.

FIRE DEPARTMENT

When I left the affairs of this City two years ago, we had an efficient and well-functioning fire department, doing good work on a fairly good equipment. During my observation of the last few weeks I find this department entirely disorganized, no harmony exists among the personnel, and I am informed that this disorganization has been going on continually through bickering and political interference. During the past year, the outgoing administration entered into an orgy of equipment purchasing. They purchased enough apparatus to efficiently equip a department suitable for a City twice this size. They bought so many pieces of apparatus at extravagant prices that they now have no room to house them. All the highest priced fire equipment in the world will not make an efficient fire department, unless the morale of the department is good, and unless there is harmony and co-operation among its members.

I want to call special attention to these facts to the members of the Council Fire Committee who will be appointed to look after the affairs of this department during the ensuing year, and I strongly urge upon them the need, not of extra equipment, but of building up the morale of the department, and if this cannot be done, then drastic measures will have to be taken to reorganize the whole department.

I recommend that a new fire station and polling place combined be built on the East Side during the coming year, and that one of the new pumpers be installed in this new fire station.

PUBLIC SCHOOLS

With the schools and equipment furnished by the citizens of this

City, there is no reason in the world why our schools should not rank with the best in the State; if they do not, there must be something radically wrong somewhere, and it is my desire that if any cause exists why the schools are not functioning to the heights of efficiency, that the cause be located and remedied.

While the management of the schools is left entirely in the hands of the School Board, as provided by Charter, still the City Council who raised the money for the maintenance of the schools, ought to have some interest in their proper management, and I believe that the City Council should give more thought to the functioning of this Board, and ought to have them report to the Council more frequently as to what is being done, and as to what can be done. I believe that these conferences and reports should not take on the form of interference by the Council, but rather in the form of advising and planning together for the better management and conduct of our schools.

It is estimated that to furnish and complete the Junior High School it will be necessary to raise about \$50,000 more. It is unfortunate that an error of so many dollars should have been made when the school bonds were floated. As it is not practical to raise another bond issue, some other means must be provided to complete this school.

BERLIN WATER WORKS

I approach this project with a great deal of apprehension. This system was acquired in a haphazard way, without the thorough investigation that a proposition of this kind demanded, and the City now has upon its hands a white elephant. If the system is to be of any value to the City of Berlin, we must of necessity get a new source of water supply, as the water supply of the present system is inadequate, and the quality of the water is a menace to the public health of the City.

From what investigation I have been able to make, I believe that acquiring a new source of supply will cost greatly in excess of the sum of money now on hand for that purpose, but if we enter into this proposition, I recommend the employment of a competent firm of hydraulic engineers for the purpose of finding a source of supply, and advising us as to its cost. When this has been done I advise that a special meeting of the voters of this City be called, and that the contemplated projects that may be recommended by the engineers be voted upon by the people of Berlin in the form of a referendum. In that manner, the majority of the citizens will have a hand in approving the expenditure of whatever sums of money may be needed to make this water system of value to them.

CONCLUSION

I recommend that we do everything in our power to keep within our appropriations, realizing always that it is an utter impossibility for every department to strictly keep within the bounds of their appropriations. After an appropriation has been made, sometimes unforeseen things arise that make it necessary to spend a little more than the appropriation calls for.

It is almost an impossibility to run the City a year without some slight overdraft in one or more departments. If we are unfortunate enough to be unable to keep within our appropriations, let us meet the issue squarely, and in our reports given to the citizens of this City, cite the true name of the expenditure.

I want to thank all of my loyal supporters in this City for their expression of confidence in me in re-electing me to the highest office in the City within their gift, and I wish to assure each and everyone of you that I will try to merit your confidence by conducting this office in the manner in which you expect me to.

There have been many appointees who held office under the past administration that have failed of re-appointment this year. I want to say to them, and the citizens of this City that my failure to reappoint them is not to be taken as a lack of confidence in them, or as a reflection on their ability to properly fill the offices. Under our system of government in this City, each and everyone of these offices are political offices, properly belonging to the political party in power. I have been elected by the votes of the voters of this City in a partizan political election, and my party is entitled to this consideration.

In making my selection I have tried to give to the City the best qualified men within my knowledge, and I know that they will give you faithful and efficient service.

Councilmen of this City of Berlin, we have entered upon our duties. Let us do our very best.

Respectfully submitted,

ELI J. KING,

Mayor.

Orders

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council that the following work be done:

March 2, 1926.

Ledge removed on Cole Street and the street graded at an approximate cost of \$500.00.

That fence be erected between Cole School property and Mr. Ramsey's property at an approximate cost of \$250.00.

May 18, 1926.

That \$10,000 be spent on the West Milan Road, beginning at a point near the Marston barn and continuing as far as funds are available. One-half of said amount to be paid by the State.

June 1, 1926.

That the sidewalk on Wight Street, from Mantering Street to the Durant store, be covered with concrete. Approximate cost, \$2,000.

That the northerly end of First Ave., from Green Street, be covered with waterbound macadam. Approximate cost \$2,500.

June 8, 1926.

First Ave., pipe brook at old hospital.

Fifth Ave., 240 ft. of 6" sewer; street grading and remove ledge; build wall and sidewalk.

HENRY M. MOFFETT,
City Clerk.

BURTON RUMNEY,
Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council that the following work be done:

June 8, 1926.

Madigan Street, 300 ft. of sewer and pave with waterbound macadam.

June 15, 1926.

That the East Side Road, from the Berlin Mills Bridge to the French Cemetery, be resurfaced with gravel and tarred, at an approximate cost of \$1,500.

That a fence be built around the Public Works yard on the Jericho Road, at a cost of about \$800.

Madison Ave., open street to Leclerc lots.

State Street, concrete sidewalk between Willard and High Streets.

Elm Street, repairs on street.

School Street, bituminous macadam First to Third Streets.

School Street, sidewalk between First and Third Streets.

Fifth Street, waterbound macadam, Main to Sweden Streets.

Sixth and Norway Streets, 18- and 15-inch sewer from Main to Sweden Streets.

Western Ave., cover sidewalk with concrete.

Jericho Road, curb and cinder fill from Durant's store to John Carron's residence.

Hamlin Street, concrete curb from Second to Third Ave.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council that the following work be done:

June 21, 1926.

Burgess Street, sidewalk and wall Merrimac Street to Thomas Street.

Burgess Street, 400 ft. of sewer and repairs on street.

Mason Street, waterbound macadam Burgess to Hillsboro Streets.

Mason Street, concrete sidewalk, Hillsboro to Rockingham Streets.

King Street, open street and build sewer.

June 29, 1926.

Hillside Ave., sidewalk from Willard to High Streets.

Hillside Ave., sidewalk Church to Prospect Streets.

Park Street, sidewalk on east side of street.

Willard Street, waterbound macadam from State to Portland Streets.

Waterbound macadam from Granite to Mason Streets.

Portland Street, waterbound macadam.

Pine Street, sidewalk from High to Junior High School.

July 6, 1926.

Overflow sewer be built on Pleasant Street, which will relieve York, Pleasant and Main Streets, at an approximate cost of \$900.

Sewer laid upper end of Kent Street, approximate cost \$1,500, providing Water Co. lays water pipe.

Brook at Champlain Street excavated and rubbish cleared away.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council that the following work be done:

July 13, 1926.

Two sidewalks be built on Rockingham Street, from Grafton to Coos Streets, approximate cost \$1,600.

Six-inch sewer be laid on Willow and Portland Streets, approximate cost \$500.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken July 27, 1926, that a sidewalk be laid on Pine Street, from Willard Street to Madison Ave.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken Aug. 3, 1926, that the following work be done:

Maple Street tarred, graveled and a wall built, approximate cost \$2,728.

Sidewalk built on Norway Street, approximate cost \$3,000.

Ryder wall and steps be built as per settlement December term of Court, 1925.

Hillsboro Street graded as soon as filling is available.

Chanplain and Grafton Streets macadamized with waterbound macadam, from Mason to Burgess Streets.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken Sept. 7, 1926, that a concrete curbstone and cinder and crusher dust sidewalk be built on the westerly side of Hillside Ave., between Spruce and Cedar Streets.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken Sept. 21, 1926, that the following work be done:

Madison Ave. (Hillside Ave. to Pine Street), remove ledge, build concrete sidewalk and W. B. M. street. \$4,600.

Norway Street, between Fifth and Seventh—W. B. M. \$1,500.

Hillsboro Street, between Mason and Grafton, sidewalk on westerly side and repairs on street. \$1,800.

HENRY M. MOFFETT,

City Clerk.

BURTON RUMNEY,

Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken Nov. 16, 1926, that a sewer be built on Main Street in compliance with the request of the Berlin National Bank, the City to pay for one-half the cost of same.

HENRY M. MOFFETT,
City Clerk.

BURTON RUMNEY,
Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken Feb. 16, 1926, that an 80 C. P. light be placed at the upper end of Church Street opposite the residence of F. E. Hamlin.

HENRY M. MOFFETT,
City Clerk.

A. E. LeBLANC,
Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken May 25, 1926, that the vote of March 23rd, which follows:

the lighting system on Main Street be rearranged in compliance with

That the present four light clusters of 100 C. P. each be replaced by one 1000 C. P. lamps like those which have been tried out and that these be installed from the Grand Trunk Station to the St. Louis Hospital and from Main Street to Goebel Street on Mason Street to the number of thirty-nine, and two 250 C. P. as per enclosed plan. It is to be understood that if the present system of wiring on Main Street be changed that the Twin State Gas & Electric Co. will furnish and install iron poles for the same.

HENRY M. MOFFETT,
City Clerk.

A. E. LeBLANC,
Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken May 25, 1926, that the following lights be placed:

80 C. P. at the corner of York and Cole Streets.

80 C. P. on upper Spruce Street opposite the residence of Joseph Deschamplain.

One on Hillside Ave. opposite Cedar Street, 80 C. P.

80 C. P. at the corner of Mt. Forist Street and Second Ave. near residence of Mrs. Angelowitz.

HENRY M. MOFFETT,

City Clerk.

A. E. LeBLANC,

Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken June 15, 1926, that an 80 C. P. light be placed at the corner of Granite and School Streets.

HENRY M. MOFFETT,

City Clerk.

A. E. LeBLANC,

Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken July 13, 1926, that an 80 C. P. light be placed on Hillsboro Street, last pole, about 100 feet above Merrimac Street; also that present light in alleyway leading from Mechanic Street to the rear of the Lafayette Building be removed to wooden bridge (Dead River). This light to be of 250 C. P.

HENRY M. MOFFETT,

City Clerk.

A. E. LeBLANC,

Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken July 13, 1926, that

a 6" sewer be laid on Willow and Portland Streets, approximate cost \$500: That two sidewalks be built on Rockingham Street from Grafton to Coos Streets, approximate cost \$1,600.00.

HENRY M. MOFFETT,
City Clerk.

BURTON RUMNEY,
Chairman Committee on Public Works.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken Aug. 3, 1926, that an 80 C. P. light be placed on Willard Street, between Hillside Ave. and Emery Street, opposite the residence of W. E. Taft.

HENRY M. MOFFETT,
City Clerk.

A. E. LeBLANC,
Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Berlin Water Works.

Ordered, by a vote of the City Council taken Aug. 10, 1926, that a hydrant be placed at the corner of Burgess and Merrimac Streets.

HENRY M. MOFFETT,
City Clerk.

H. GOSSELIN,
Chairman Committee on Fire Department.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to P. J. Thomas, Fire Chief.

Ordered, by a vote of the City Council taken Aug. 10, 1926, that two fire alarm boxes be placed as follows:

One at the corner of Hillside Ave. and Lincoln Ave.

One at the corner of Glen Ave. below the Cross Power.

HENRY M. MOFFETT,
City Clerk.

H. GOSSELIN,
Chairman Committee on Fire Department.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Berlin Water Works.

Ordered, by a vote of the City Council taken Aug. 31, 1926, that a hydrant be placed on Kent Street.

HENRY M. MOFFETT,

City Clerk.

H. GOSSELIN,

Chairman Committee on Fire Department.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Electric Co.

Ordered, by a vote of the City Council taken Nov. 9, 1926, that the following lights be placed: all of same to be of 80 C. P.:

One at the corner of Eight and Finland Streets.

One at the extreme end of Poplar Street, near A. Dube's residence, last pole.

One opposite Mr. Rabida's residence on Madison Ave. and one two poles up from Mr. Rabida's residence. This will take care of Madison Ave. extension.

One opposite J. Buote's residence on Burgess Street and one at the corner of Berwick and Burgess Streets.

One on lower Spruce Street opposite the residence of F. Routhier.

One on Champlain Street opposite Mr. Brady's new tenement house.

One at the corner of Hillsboro and Coos Streets.

That the light on Hillside Ave. about 100 feet below the foot of Poplar Street be moved up one pole.

HENRY M. MOFFETT,

City Clerk.

A. E. LeBLANC,

Chairman Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Twin State Gas & Elec. Co.

Ordered, by a vote of the City Council taken Nov. 23, 1926, that the light located at the corner of Second and Main Streets be moved up to the lower end of Second Street and be placed with a projecting arm on the post located there, so as to take care of both streets.

HENRY M. MOFFETT,

City Clerk.

A. E. LeBLANC,

Chairman, Committee on Electric Lights.

In the year of our Lord one thousand nine hundred and twenty-six.

An order to Berlin Water Works.

Ordered, by a vote of the City Council taken Dec. 14, 1926, that two hydrants be placed as follows:

One at the corner of Sixth Ave. and Labossiere Street.

One at the corner of Sixth Ave. and Madigan Street.

HENRY M. MOFFETT,

City Clerk

H. GOSSELIN,

Chairman, Committee on Fire Department.

- - - - -

In the year of our Lord one thousand nine hundred and twenty-six.

An order to F. L. Brannen, Supt. of Public Works.

Ordered, by a vote of the City Council taken Nov. 16, 1926, that a sewer be built on Main Street in compliance with the request of the Berlin National Bank, the City to pay for one-half the cost of same.

HENRY M. MOFFETT,

City Clerk.

B. J. RUMNEY,

Chairman, Committee on Public Works.

Resolutions

In the year of our Lord one thousand nine hundred and twenty-six.
A RESOLUTION appropriating money to defray the expenses of
the different departments of the City Government for the fiscal
year ending January 31, 1927.

Resolved by the City Council of the City of Berlin as follows:

That the sum of six hundred eighty-two thousand two hundred
forty-five dollars and fifty-eight cents (\$682,245.58) be raised by tax
on polls and estates liable to be taxed in said City to defray the ex-
penses of the different departments of the City Government for the
fiscal year ending January 31, 1927.

Report of Board of Education

To His Honor, the Mayor, City Council and Citizens of Berlin:

We submit herewith the forty-second annual report of the Department of Education.

The completion and opening of the new junior high school building has been the outstanding accomplishment of the year. This has relieved the congestion in the high school and should make conditions much better for effective work in the upper grades. By careful use of available funds we have been able to keep within our budget without sacrificing effectiveness. Some housing problems still remain which are discussed in more detail in the Superintendent's report.

We wish to express our appreciation of the cordial support of the Mayor and his Council and all citizens whose friendly attitude makes good work in schools possible.

Respectfully submitted,

GEORGE F. LOVETT, Chairman,
J. CLARE CURTIS,
O. J. COULOMBE,

Report of Superintendent

To the Board of Education:

In submitting this, my sixth annual report, I wish to express in the beginning my deep appreciation of the kindly and intelligent interest of the School Board in the conduct of school affairs. The absence of Mr. MacLean during this past half year has made the administration work doubly difficult. It has been necessary for the Superintendent to spend an undue amount of time with the high schools. However, in the grades every building principal from last year remained and the work has gone on well. I believe we will manage to get through this period of Mr. MacLean's illness without sacrificing in any essential activity.

During the coming semester I hope to leave more responsibility with Mr. Thompson and Miss Gilbert, who have so ably assisted in the administration work of the high school. This will enable me to maintain a closer touch with the lower grades.

Last year we began writing a detailed course of study for the elementary schools. I am anxious to get at this work again as I believe it is quite essential to the continued progress of the grades.

The opening of the new junior high school has been a great relief. For the first time since I have been in Berlin the pupils in the junior high school have ample space and ample time to do their work well. I wish especially to commend the work of Mr. Garrett in organizing and carrying on in this new building. Before, however, the junior high school can really fulfill its function there must be some broadening of the curriculum and this will require at least one more teacher.

May I call your attention to the number of large classes in the grades? Much more effective work can be done here if these classes can be divided. We have ample room to divide the classes in the Burgess and Marston districts. We still have congestion in the Brown and Bartlett districts, for which I can see no immediate remedy. The Cascade situation has been considerably relieved by the opening of the Cascade parochial school.

There is considerable demand for a public school on the East Side. We have enough pupils now attending from that district to fill a four-room building and I believe that many others would attend a

public school on the East Side if it was provided. I hope that the new year may see steps taken to build. At the same time we must keep in mind that in the near future an addition will be necessary at the Bartlett and possibly at the Brown schools.

I am not including in this printed report the extended report of each of the departments. Their activities are practically the same as last year with practically the same supervisors in charge.

The evening school we started somewhat later and contrary to our expectations is considerably larger than last year. The cost of the evening school will be more than our budget provided, but on account of the late start, the additional expense will come on our next fiscal year.

Research Department

To Superintendent Carl M. Bair :

I herewith submit my second annual report as Director of the Research Department.

Tests in Arithmetic, Spelling and Silent Reading have been given three times during the year and the results tabulated and the papers filed.

Intelligence tests were given in all the third grades so that the students for the accelerated fourth grade might be selected. A number of individual tests were also given.

The Army Alpha was given to all Freshmen entering from outside schools.

Spelling and Reading tests were sent to us by the State Department to be given to the high school students. The papers were graded and the results sent to the State Department.

One hundred fifty pupils entering our schools from other schools were tested and placed in their respective grades.

That the teachers have been very faithful in their drill work is shown in the table of results. I call your attention especially to the results in Silent Reading. The comparison of the results of 1923 and 1926 shows very favorably the effort that has been made to bring the various subjects up to standard.

Respectfully submitted,

BLANCHE J. CUNNINGHAM.

High School

The Senior High School, on account of the illness of Mr. MacLean, has been more of a problem than heretofore. It has been our plan to carry on its work with as little change as possible from past policies. In spite of his illness, Mr. MacLean worked out the preliminary organization of the school and the daily program which has been followed. Such changes as have been made in policy are in most cases made as a result of conferences between Mr. MacLean and the Superintendent.

REGISTRATION

The total registration for the school year ending June, 1926, was 519 pupils, 232 boys and 287 girls. Table I gives the registration in full. The total enrollment of the Senior High School to date for the year 1926-1927 is 507 pupils, 235 boys and 272 girls. Nine pupils who left school last year, due to sickness and other causes, have returned.

The registration of the class of 1930 for the school year 1926-1927 is as follows: from the public schools 92, repeating the year 6, from St. Patrick School 29, from St. Regis Academy 4, from Angel Guardian School 3 and from outside schools 11, a total of 145 pupils, 75 boys and 70 girls.

One hundred five pupils graduated in June, 1926. Table III gives a full report of the activities of the members of this class since graduation. It will be seen from this table that 35 percent entered colleges and training schools as compared with 30 percent for 1925, 37 percent for 1924 and 47 percent for 1923. There are 103 pupils in the senior class that will graduate in June, 1927.

There are four important items of High School administration which I would like to call to your attention.

First, the Curricula

While program of studies as approved by the State Board of Education remains the same as it has been for a number of years, more pupils than ever before are taking up the General course. This, I believe, is good policy. It is a very difficult problem to place Freshmen, about whom we have limited knowledge, in proper courses. The General course, on account of its wide number of electives, offers opportunity to make corrections without loss to student. The State Board of Education complimented us highly on the work of the Com-

mercial, Manual Arts and Science departments. They criticised the work in English and particularly Mathematics. We have for a number of years been following in the main, the Breslich system of correlated mathematics. While theoretically this may be sound, it has been very difficult, in fact, almost impossible, to obtain teachers trained for this type of work. With some groups we have gone back to the old system.

Second, The School Day

The school day has been lengthened to seven forty-five minute periods, a school day of five hours and fifteen minutes. This should enable the pupils to do most of their work at school.

Third, Extra Activities

In accordance with the suggestions of the Board of Education, no social activities are held on evenings preceding a school day nor are dances held except for the school group. I have no doubt that both of these actions will meet with the approval of our patrons.

Fourth, General Assemblies

From the beginning of the school year, we have held general assemblies regularly at 2.30 on Friday afternoon. The spirit of the institution has been largely controlled through these assemblies. While we have occasionally had speakers from outside, it has been our purpose to use these assemblies to develop and express the talents of our own pupils. For the first time in a number of years the High School, as a whole, has had an opportunity to sing. The spirit of the Assembly has been happy and wholesome and I hope they may be continued indefinitely.

That the items mentioned above are really functioning is evident from the fact that we have had a lower proportion of failures than in the past. The pupils have more time and more inclination to do their daily work.

Report of Principal of Junior High School

To the Superintendent of Schools:

Sir:—I present my first report as Principal of the Berlin Junior High School.

For the first time in several years the Junior High pupils are in a building by themselves. With this added opportunity, plus a well balanced, efficient teaching staff, the pupils are accomplishing results that are pleasing. Not alone along scholastic lines, but in the field of character development we, the teachers, are seeing results that are gratifying. Increased respect for fellow pupil, teacher, school and city, as well as loyalty to all rules of action, tell us with great force that the Junior High is doing its intended work.

The system of one-hour periods, which is used in our school, gives pupils many opportunities which are not possible in shorter periods. It gives us the possibility of at least twenty-five minutes of study supervised by a teacher who has specialized in her subject. This study is carried on in a quiet room with the teacher always in attendance, ready to answer any questions. This will save time for the pupil and will also give a more exact understanding of his subject. Periods of help are provided in the afternoon, after the regular session, which enables the pupils to see their teachers at least twice per week for added help.

We have had very few visitors at our sessions and I take this opportunity to invite parents to visit our school to see it in operation. A visit to some classes will, I am certain, convince the parents that their children are enjoying privileges and at that time the children will demonstrate the fact that they are making the most of their opportunities.

The enrollment of 301 pupils represents a group of earnest and contented boys and girls that will soon be the men and women of Berlin; we endeavor to teach them the meanings and values of attributes that make for worthy citizens of the future. The Junior High is for your children. We are giving our efforts to produce boys and girls that will be a credit to the City of Berlin.

The success of the school thus far is due to the loyal, co-operative work of our staff, and the co-operation of our pupils with the school. I am personally indebted to Mr. Bair, whose wise counsel and ever present desire to help our school and teachers has made possible such a successful first year in our new building.

Respectfully submitted,

RANSOME J. GARRETT.

Fire Department

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—I have the honor of submitting herewith the annual report of the Fire Department of the City of Berlin for the year ending December 31, 1926.

During the month of March we received and put in service 1 American LaFrance Triple Combination and 1 American LaFrance City Service ladder truck. The Paige Combination truck was transferred to Berlin Mills Fire Station, thereby completing the motorization of the Department.

Building inspections in the business section were made and fire prevention was carried on during the year.

During the year we answered alarms in Gorham on three occasions and one alarm in Milan. In Berlin, we answered 269 still alarms, 44 bell alarms and 6 false alarms, making a total of 323 alarms. In answering these alarms we traveled 480.2 miles, worked 166 hours and 15 minutes, used 29,375 ft. of chemical hose, 8,184 gallons of chemical, 4,731 ft. of ladders and 16,100 ft. of 2½ in. fire hose.

The fire loss for the year was \$6,635.15 on buildings and \$5,265.12 on contents, making a total of \$11,900.27.

A statement in detail of all fires and alarms for which damage was claimed follows, with the names of owners and occupants.

In closing I wish to express my thanks to the Mayor, City Council, Fire Department Committee and residents of Berlin for the favors and courtesies shown me in the performance of my duties.

Respectfully submitted,

P. J. THOMAS,
Chief Engineer.

RECORD OF FIRES

Date of fire, Jan. 3. 2-story frame building. Occupied as tenement. Owned by Mrs. Larochelle. Occupied by same. Value of building, \$4,000. Damage to building, \$5.00. Insurance on building, \$2,000. Insurance paid, \$5.00. Cause of fire, overheated chimney.

Date of fire, Jan. 7. 2½-story frame building. Occupied as tenement. Owned by Mrs. Bourassa. Occupied by same and others. Value of building, \$5,000. Damage to building, \$49.35. Insurance on

building, \$4,500. Insurance paid, \$49.35. Cause of fire, overheated chimney.

Date of fire, Jan. 14. 2½-story frame building. Occupied as tenement. Owned by Frank Femia. Occupied by same and others. Value of building, \$10,000. Damage to building, \$25.30. Insurance on building, \$8,000. Insurance paid, \$25.30. Value of contents, \$1,500. Damage to contents, \$30.20. Insurance on contents, \$700. Insurance paid, \$30.20. Cause of fire, smoking in bed.

Date of fire, Jan. 15. 2-story frame building. Occupied as tenement. Owned by L. Goyette. Occupied by same and others. Value of building, \$6,000. Damage to building, \$266. Insurance on building, \$3,500. Insurance paid, \$266. Cause of fire, defective oil burner.

Date of fire, Jan. 15. 2-story frame building. Occupied by G. Gonya. Owned by L. Goyette. Value of contents, \$1,000. Damage to contents, \$400. Insurance on contents, \$500. Insurance paid, \$400.

Date of fire, Jan. 16. 2-story frame building. Occupied as tenement. Owned by Mrs. L. Vien. Occupied by N. Bouchard. Value of building, \$3,000. Damage to building, \$405.50. Insurance on building, \$2,000. Insurance paid, \$405.50. Cause of fire, overheated chimney.

Date of fire, Jan. 16. 2-story frame building. Occupied by N. Bouchard. Owned by Mrs. L. Vien. Value of contents, \$2,000. Damage to contents, \$736.25. Insurance on contents, \$1,500. Insurance paid, \$736.25.

Date of fire, Jan. 17. 2½-story frame building. Occupied as tenement. Owned by Mrs. L. Vien. Occupied by same and others. Value of building, \$1,000. Damage to building, \$32.00. Insurance on building, \$4,000. Insurance paid, \$32.00. Cause of fire, defective oil burner.

Date of fire, Jan. 18. 1-story frame building. Occupied as residence. Owned by L. Martin. Occupied by same. Value of building, \$1,000. Damage to building, \$600. Insurance on building, \$600. Insurance paid, \$600. Cause of fire, unknown.

Date of fire, Jan. 25. 2-story frame building. Occupied as residence. Owned by W. Hynes. Occupied by same. Value of building, \$4,500. Damage to building, \$57.00. Insurance on building, \$3,800. Insurance paid, \$57.00. Cause of fire, dirty chimney.

Date of fire, Jan. 29. 3-story frame building. Occupied as tenement. Owned by O. Napert. Occupied by same and others. Value of building, \$8,000. Damage to building, \$22.39. Insurance on building, \$8,000. Insurance paid, \$22.39. Cause of fire, dirty chimney.

Date of fire, Jan. 29. 2½-story frame building. Occupied as

residence. Owned by Mrs. Wilson. Occupied by same. Value of contents, \$2,000. Damage to contents, \$60. Insurance on contents, \$600. Insurance paid, \$60. Cause of fire, defective oil stove.

Date of fire, Jan. 31. 2-story brick building. Occupied as garage. Owned by City of Berlin. Occupied by same. Value of contents, \$1,000. Damage to contents, \$79.44. Insurance on contents, \$6,000. Insurance paid, \$79.44. Cause of fire, wood piled against furnace to dry.

Date of fire, Jan. 31. 2½-story frame building. Occupied as tenement. Owned by A. Prince. Occupied by same and others. Value of building, \$6,000. Damage to building, \$70.65. Insurance on building, \$4,500. Insurance paid, \$70.65. Cause of fire, defective chimney.

Date of fire, Feb. 4. 2-story frame building. Occupied as residence. Owned by F. Hammah. Occupied by same. Value of building, \$5,000. Damage to building, \$19.78. Insurance on building, \$4,500. Insurance paid, \$19.78. Cause of fire, defective oil stove.

Date of fire, Mar. 1. 2-story frame building. Occupied as tenement. Owned by L. Goyette. Occupied by same and others. Value of building, \$5,000. Damage to building, \$814.20. Insurance on building, \$3,500. Insurance paid, \$814.20. Cause of fire, unknown.

Date of fire, Mar. 1. 2-story frame building. Occupied as tenement. Owned by L. Goyette. Occupied by G. Gonya. Value of contents, \$1,000. Damage to contents, \$50. Insurance on contents, \$100. Insurance paid, \$50.

Date of fire, Mar. 12. 2-story brick building. Occupied as tenement. Owned by Moffet and Larochelle. Occupied by same and others. Value of building, \$45,000. Damage to building, \$172.06. Insurance on building, \$35,000. Insurance paid, \$172.06. Cause of fire, short circuit.

Date of fire, Mar. 13. 2-story frame building. Occupied as residence. Owned by J. McKelvey. Occupied by same. Value of building, \$5,000. Damage to building, \$48.15. Insurance on building, \$5,000. Insurance paid, \$48.15. Cause of fire, overheated chimney.

Date of fire, Mar. 14. 3-story frame building. Occupied as tenement. Owned by F. Lachance. Occupied by same and others. Value of building, \$15,000. Damage to building, \$67.50. Insurance on building, \$12,000. Insurance paid, \$67.50. Cause of fire, dirty chimney.

Date of fire, Mar. 28. 2½-story frame building. Occupied as tenement. Owned by T. Keating. Occupied by same and others. Value of building, \$6,000. Damage to building, \$14.50. Insurance on

building, \$5,000. Insurance paid, \$14.50. Cause of fire, dirty chimney.

Date of fire, Mar. 30. 2-story brick building. Occupied as clothing store. Owned by Levine & Brody. Occupied by same. Value of contents, \$20,000. Damage to contents, \$10.75. Insurance on contents, \$18,500. Insurance paid, \$10.75. Cause of fire, defective oil stove.

Date of fire, Mar. 31. 1½-story frame building. Occupied as residence. Owned by A. Cote. Occupied by same. Value of building, \$3,000. Damage to building, \$19.00. Insurance on building, \$1,500. Insurance paid, \$19.00. Cause of fire, dirty chimney.

Date of fire, April 25. 2½-story frame building. Occupied as foundry. Owned by Cross & Co. Occupied by same. Value of building, \$50,000. Damage to building, \$63.12. Insurance on building, \$43,400. Insurance paid, \$63.12. Cause of fire, explosion of hot iron.

Date of fire, May 12. 2½-story frame building. Occupied as tenement. Owned by O. Roy. Occupied by same and others. Value of building, \$7,000. Damage to building, \$20.25. Insurance on building, \$3,000. Insurance paid, \$20.25. Cause of fire, dirty chimney.

Date of fire, May 20. 2-story frame building. Occupied as residence. Owned by C. Pinette. Occupied by same. Value of building, \$6,000. Damage to building, \$12.10. Insurance on building, \$4,500. Insurance paid, \$12.10. Cause of fire, dirty chimney.

Date of fire, May 25. 2-story frame building. Occupied as residence. Owned by P. King. Occupied by same and others. Value of building, \$4,000. Damage to building, \$160.37. Insurance on building, \$3,500. Insurance paid, \$160.37. Value of contents, \$2,000. Damage to contents, \$2.50. Insurance on contents, \$1,500. Insurance paid, \$2.50. Cause of fire, fire in adjoining building.

Date of fire, May 30. 3-story brick building. Occupied as tenement. Owned by P. Burbank. Occupied by various parties. Value of building, \$45,000. Damage to same, \$24.50. Insurance on building, \$28,000. Insurance paid, \$24.50. Cause of fire, smoking in bed.

Date of fire, June 5. 2½-story frame building. Occupied as tenement. Owned by J. Labrecque. Occupied by same and others. Value of building, \$7,000. Damage to building, \$30. Insurance on building, \$5,000. Insurance paid, \$30. Cause of fire, dirty chimney.

Date of fire, June 19. 2½-story frame building. Occupied as tenement. Owned by J. Gunn. Occupied by same and others. Value of building, \$7,000. Damage to building, \$28.70. Insurance on building, \$4,900. Insurance paid, \$28.70. Cause of fire, heating varnish on stove.

Date of fire, July 4. 1½-story frame building. Occupied as residence. Owned by J. Roy. Occupied by same. Value of building, \$4,000. Damage to building, \$15.00. Insurance on building, \$2,000. Insurance paid, \$15.00. Cause of fire, fireworks.

Date of fire, Aug. 18. 2-story frame building. Occupied as tenement. Owned by Mrs. A. Bergeron. Occupied by same and others. Value of contents, \$2,000. Damage to contents, \$45.57. Insurance on contents, \$1,500. Insurance paid, \$45.57. Cause of fire, defective oil stove.

Date of fire, Aug. 28. 2½-story frame building. Occupied as tenement. Owned by Mrs. B. Smith Est. Occupied by various parties. Value of building, \$5,000. Damage to building, \$15.00. Insurance on building, \$2,500. Insurance paid, \$15.00. Cause of fire, dirty chimney.

Date of fire, Sept. 1. 2½-story frame building. Occupied as residence. Owned by Mrs. F. Ward. Occupied by same. Value of building, \$10,000. Damage to same, \$86.00. Insurance on building, \$5,000. Insurance paid, \$86.00. Value of contents, \$2,000. Damage to contents, \$20.00. Insurance on contents, \$1,500. Insurance paid, \$20.00. Cause of fire, oil heater.

Date of fire, Sept. 1. 2-story frame building. Occupied as residence. Owned by T. Hogan. Occupied by same. Value of building, \$4,000. Damage to building, \$29.50. Insurance on building, \$3,500. Insurance paid, \$29.50. Cause of fire, dirty chimney.

Date of fire, Sept. 7. 2½-story frame building. Occupied as tenement. Owned by P. Beaudoin. Occupied by same and others. Value of building, \$4,500. Damage to building, \$10.96. Insurance on building, \$3,500. Insurance paid, \$10.96. Cause of fire, dirty chimney.

Date of fire, Sept. 8. 2½-story frame building. Occupied as tenement. Owned by Mary Dion. Occupied by same and others. Value of building, \$12,000. Damage to building, \$43.85. Insurance on building, \$9,000. Insurance paid, \$43.85. Cause of fire, dirty chimney.

Date of fire, Sept. 11. 2-story frame building. Occupied as tenement. Owned by A. Willie. Occupied by same and others. Value of building, \$5,000. Damage to building, \$49.00. Insurance on building, \$4,000. Insurance paid, \$49.00. Cause of fire, defective oil stove.

Date of fire, Sept. 13. 3-story brick building. Occupied as tenement. Owned by J. H. Montminy. Occupied by same and others. Value of building, \$15,000. Damage to building, \$1,348.09. Insurance on building, \$13,000. Insurance paid, \$1,348.09. Value of contents, \$5,000. Damage to same, \$379.40. Insurance on contents,

\$1,250. Insurance paid, \$379.40. Cause of fire, defective oil heater.

Date of fire, Sept. 13. 2-story frame building. Occupied as tenement. Owned by J. Jassop. Occupied by same and others. Value of building, \$10,000. Damage to building, \$15.00. Insurance on building, \$9,000. Insurance paid, \$15.00. Cause of fire, unknown.

Date of fire, Oct. 3. 3-story brick building. Occupied as tailor shop. Owned by N. Abramson. Occupied by M. Morrison. Value of contents, \$2,000. Damage to same, \$28.00. Insurance on contents, \$1,500. Insurance paid, \$28.00. Cause of fire, smoking in bed.

Date of fire, Oct. 9. 2-story frame building. Occupied as residence. Owned by L. Sarard. Occupied by same. Value of building, \$6,000. Damage to building, \$35.00. Insurance on building, \$5,000. Insurance paid, \$35.00. Cause of fire, dirty chimney.

Date of fire, Oct. 12. 2½-story frame building. Occupied as tenement. Owned by G. Grégoire. Occupied by same and others. Value of building, \$5,000. Damage to building, \$20.75. Insurance on building, \$3,000. Insurance paid, \$20.75.

Date of fire, Nov. 4. 3-story frame building. Occupied as tenement. Owned by J. Sheridan. Occupied by various parties. Value of building, \$15,000. Damage to building, \$1,236.84. Insurance on building, \$10,000. Insurance paid, \$1,236.84. Cause of fire, defective oil heater.

Date of fire, Nov. 4. 3-story frame building. Occupied as restaurant. Owned by J. Sheridan. Occupied by G. Studd. Value of contents, \$11,000. Damage to contents, \$2,732.84. Insurance on contents, \$11,000. Insurance paid, \$2,732.84.

Date of fire, Nov. 4. 3-story frame building. Occupied as cigar store. Owned by J. Sheridan. Occupied by C. D. Smith. Value of contents, \$3,000. Damage to contents, \$346.36. Insurance on contents, \$2,500. Insurance paid, \$346.36.

Date of fire, Nov. 7. 2-story frame building. Occupied as blacksmith shop. Owned by Fred Bell. Occupied by A. Trambly. Value of building, \$4,000. Damage to building, \$41.15. Insurance on building, \$1,250. Insurance paid, \$41.15. Cause of fire, unknown.

Date of fire, Nov. 7. 2-story frame building. Occupied as blacksmith shop. Owned by Fred Bell. Occupied by A. Trambly. Value of contents, \$3,000. Damage to contents, \$118.81. Insurance on contents, \$1,350. Insurance paid, \$118.81.

Date of fire, Nov. 11. 1½-story frame building. Occupied as residence. Owned by F. Boivin. Occupied by same. Value of building, \$5,000. Damage to building, \$550.00. Insurance on building, \$4,000. Insurance paid, \$550.00. Value of contents, \$1,000. Damage

to contents, \$25.00. Insurance on contents, \$600. Insurance paid, \$25.00. Cause of fire, unknown.

Date of fire, Nov. 11. 2-story frame building. Occupied as residence. Owned by G. Robichaud. Occupied by same. Value of contents, \$1,500. Damage to contents, \$100. Insurance on contents, \$100. Insurance paid, \$100. Cause of fire, unknown.

Date of fire, Dec. 3. 2½-story frame building. Occupied as tenement. Owned by Mrs. N. King. Occupied by same and others. Value of building, \$5,000. Damage to building, \$31.65. Insurance on building, \$3,500. Insurance paid, \$31.65. Cause of fire, bed on fire.

Date of fire, Dec. 4. 2-story frame building. Occupied as residence. Owned by W. Oleson. Occupied by same. Value of building, \$5,000. Damage to building, \$5.00. Insurance on building, \$2,500. Insurance paid, \$5.00. Cause of fire, overheated chimney.

Date of fire, Dec. 8. 2-story frame building. Occupied as tenement. Owned by L. Hodgdon. Occupied by various parties. Value of building, \$8,000. Damage to building, \$25.00. Insurance on building, \$6,000. Insurance paid, \$25.00. Cause of fire, blow back from oil burner.

Date of fire, Dec. 8. 2-story frame building. Occupied as shine parlor. Owned by L. Hodgdon. Occupied by B. Arsenault. Value of contents, \$3,000. Damage to same, \$25.00. Insurance on contents, \$3,000. Insurance paid, \$25.00.

Date of fire, Dec. 16. 2½-story frame building. Occupied as tenement. Owned by P. Choinard. Occupied by same. Value of contents, \$6,000. Damage to same, \$75.00. Insurance on contents, \$3,000. Insurance paid, \$75.00. Cause of fire, short circuit.

Date of fire, Dec. 26. 2½-story frame building. Occupied as tenement. Owned by S. Morando. Occupied by same and others. Value of building, \$5,000. Damage to same, \$50.00. Insurance on building, \$1,300. Insurance paid, \$50.00. Cause of fire, children playing with matches.

H. A. SMITH,
Sealer of Weights and Measures.

Report of Police Commissioners

To His Excellency, the Governor of the State of New Hampshire,
and to His Honor, the Mayor, and City Council of the City of
Berlin:

In accordance with the provisions of Chapter 160, of Session
Laws of 1905, as amended by Chapter 148 of the Session Laws of
1913, we submit our annual report.

The three-shift system inaugurated last April has been successful
and seems to have received the general approval of the public. The
officers have been conscientious in the pursuit of their duties. Only
one charge has been made against a member of the force during the
past year and that was dismissed after a hearing. The department
has always worked in harmony with County and State officers.

Appropriations

It will probably be necessary during the coming year to install a
new call system; the present system is continually out of order, and
is inadequate. We shall also need a new motorcycle. We know of
no other extraordinary items of expense to be met during the coming
year, and for the usual expenses would recommend the same appro-
priation as last year, namely \$38,000. The total expenses for the de-
partment for the past year will be about \$45,000, and a credit of about
\$12,000, from the Police Court, will bring the net cost down to about
\$33,000. We do not expect to duplicate this performance in 1927, as
a normal credit for fines is about \$7,000.

Police Commissioners

The Police Commissioners are appointed by the Governor, one
each year, for a period of three years, with a salary of \$350.00 a year
to be divided as the board may determine. The term of each member
expires as follows:

Perley W. Churchill, September 1, 1929.

Edmund Sullivan, September 1, 1928.

Napoleon Ramsey, September 1, 1927.

Beats

Beat No. 1—Berlin Mills, from Eighth Street to St. Anne's
Church.

Beat No. 2—From St. Anne's Church to Stahl-Clark's Store.

Beat No. 3—From Stahl-Clark's Store to Grand Trunk Station, and Lower Main Street, opposite the I. P. Co., as far as the Grand Trunk Crossing.

Beat No. 4—Pleasant Street.

Beat No. 5—East Side, Boston & Maine Station, and Mason St.

Respectfully submitted,

NAPOLEON RAMSEY,

EDMUND SULLIVAN,

P. W. CHURCHILL,

Police Commissioners.

Police Department

YEARLY REPORT OF THE CITY MARSHAL

To the Honorable Board of Police Commissioners:

Gentlemen:—I have the honor to submit for your consideration the Yearly Report of the Police Department, commencing January 1st and ending December 31, 1926.

The total amount expended for additions and repairs was \$14,250.

BRICK AND CONCRETE BUILDINGS

INSIDE THE FIRE DISTRICT

Berlin National Bank	2-story, Green Square
Pite Cote	3-story, Pleasant Street
C. Savehik	1-story, Green Street
W. F. Costello	1-story, Pleasant Street

The total amount expended for brick and concrete buildings was \$104,250.

BRICK AND CONCRETE BUILDINGS

OUTSIDE THE FIRE DISTRICT

Armory Hall	2-story, Green Street
William Ouellet	2½-story, Elm Street
W. J. Morrison	1-story, Second Avenue

The total amount expended for brick and concrete buildings was \$45,350.

The total cost of all new building additions and repairs in the City of Berlin, for the year ending January 31st, was \$379,700.

This does not include the new additions and repairs done by the corporations, that is the Brown Co. and the International Paper Co.

I wish to thank the Mayor and Council and the members of the City Government for the aid and courtesies extended to me during the year of my official duties.

Respectfully submitted,

ALFRED ROUTHIER,

Building Inspector.

Saturdays, 9 a. m. to 12 m.

Report of the Board of Health

Berlin, N. H., December 31, 1926.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—We have the honor to submit to the honorable body the sixteenth annual report of the work accomplished by this department during the year 1926.

We believe that this report shows very substantial progress in the work of our department, and that our present Health Officer deserves a great deal of credit for what has been accomplished thus far. His suggestions regarding the matter of more systematic recording of vital statistics; the offer of the laboratory and his assistance to the local physicians; the establishment of venereal disease supervision in such a fashion as not to make it too conspicuous, but with the help and co-operation of our physicians and this department, would tend to alleviate the inconvenience connected with this sort of work; to have all children under five years of age immunized against diphtheria, the above suggestions should receive a good deal of consideration.

There was a slight outbreak of measles during the spring. One child was reported as having died from this infectious disease. Necessary quarantine procedures were taken in time to prevent the spread of this disease and cause any further mortality.

The milk situation seems to be improving somewhat and we feel that this year may bring about some changes in regard to the eradication of tuberculosis from cattle. We propose to have a survey of all cattle made in and in the vicinity of Berlin to make sure that all of them are free from disease dangerous to public health.

The water situation has caused us considerable worry during the summer, due to the fact that the city was obliged to pump directly from the Androscoggin River into the city mains, and that the condition of the supply was far from satisfactory, and as much as this water was chlorinated, in all probability some of the water might not have received the necessary dosage for efficient treatment. The four cases of typhoid fever which were reported during August was no doubt due to the drinking of inadequately treated river water. We are very glad to state that after considerable discussion and investigation on the part of our Board and the Water Commissioners, that it was finally decided that the upper Ammonoosuc River supply would be the

most feasible, adequate and reasonable source for our new supply. Accordingly, approval was given to this source by the State Board of Health on September 1, 1926. Work has already begun, and it is expected that this supply will be installed not later than July 1, 1927. It will be a most welcome relief for our citizens.

We wish to take this opportunity to express our appreciation for the co-operation we have received from the citizens of Berlin, and especially the help we have received from the Mayor and City Council.

We have kept within our appropriation this year, but would recommend that a larger appropriation be made during the coming year. We also wish to recommend that our present Health Officer be reappointed with an increase in salary for the coming year.

Respectfully submitted,

MRS. JULES SIROIS.

JAMES J. FEENEY.

Report of the Health Officer

Berlin, N. H., December 31, 1926.

To the Board of Health of the City of Berlin, N. H.:

I herewith have the honor to submit the sixteenth annual report of the Department of Health, covering the activities for the year ending December 31, 1926.

It is my desire at this time to express my appreciation of the un-failing co-operation received from the members of the Board. I also wish to thank the Mayor, the committee on Public Health and members of the City Council in making it possible for me during the summer to attend the Massachusetts Institute of Technology, in order that I may be better qualified to serve the public in my present position.

VITAL STATISTICS

Vital statistics, according to Newsholme, is the science of numbers applied to the life history of communities and nations. Vital statistics are the indispensable Basis of Public Health Work; this is a fact not sufficiently recognized among health officers, who not infrequently regard the annual report with its necessary tabulations as formal rather than useful. Instead of being regarded as mere formality and history, vital statistics should be the constant basis of public health work, but their greatest value lies in their immediate use. It is interesting and ultimately most valuable to know that a baby has been born at a certain place on a certain day, of such and such a parentage, but it is more important that a baby shall live and grow up well. Birth certificates have a special use as the basis of infant hygiene work. Boards of Health or other proper authorities should see to it that every baby born has a good chance to live. The health officer of a city or he whose duty it is to collect and record the vital statistics should study them as soon as received.

POPULATION

It is only for the census years that populations can be known with certainty. For the intercensal years, the years between two censuses, it is necessary to depend upon estimates. These estimates are only approximately true, a fact which must not be forgotten, but they are sufficiently near the truth for many practical uses. Using the United States Census Bureaus, our population for 1910 was 11,780; in

1920 it was 16,104. An estimate of the population of the City of Berlin on July 1, 1926, calculated from the method adopted by the U. S. Bureau of Census, places our population at 18,700.

Table No. 1. Estimated Mid-Year Population Based on Census Figures :

Year	Population	Census Figures
1910	11,780	Estimated July 1st
1911	12,213	Estimated July 1st
1912	12,646	Estimated July 1st
1913	13,078	Estimated July 1st
1914	13,511	Estimated July 1st
1915	13,944	Estimated July 1st
1916	14,377	Estimated July 1st
1917	14,810	Estimated July 1st
1918	15,242	Estimated July 1st
1919	15,674	Estimated July 1st
1920	16,104	Census Figures
1921	16,536	Estimated July 1st

1926	18,700	Estimated July 1st

BIRTHS

There were 533 living births reported to the City Clerk during the year 1926, giving us a birth rate of 28.5 babies for every thousand inhabitants.

Table No. 2. Number of Living Births and Rate per 1,000 Population :

Year	Births	Rate
1920	537	33.3
1921	593	35.8
1922	535	31.5
1923	541	31.0
1924	556	31.1
1925	515	28.1
1926	533	28.5

Table No. 3. Number of Living Births during the month in which they occurred :

Total	26	23	16	36	21	18	16

DEATHS

There were 168 resident deaths and 14 non-resident deaths during the year 1926. These figures do not include the stillbirths (babies born dead). "Stillbirths" are not considered by statisticians as a birth, although the Model Law requires that a stillbirth be reported both as a birth and as a death in order to have the desired facts placed on file.

Table No. 5. Number of deaths and rates :

Year	Deaths	Rate	Rate
		(Res. only)	(Res. & Non-R
1920	184		11.4
1921	181		10.4
1922	156		9.2

INFANT WELFARE

Infant welfare activities embrace those relating to infants from birth to the age of six. The work was originally the care of sick babies, but it is now primarily the prevention of sickness, and the promotion of growth and vigor among infants. But the problem of infant welfare is primarily medical, and the work is nearly always done under the auspices of a department of health. Infant mortality is the most sensitive index we possess of social welfare, the chief cause of infant mortality being unhygienic care of the infant on the part of the mother or nurse, grounded in ignorance frequently rendered hidebound by prejudice, the strongest step that can be taken is the instruction of mothers. One chief way of accomplishing this is through home instruction by an "Infant Hygiene Nurse."

The Berlin Child Hygiene Association, organized six years ago, has been instrumental in bringing about the baby clinics, in charge of clinic physicians, that are now maintained in this city. The gratifying results that are obtained by this association in their campaign of baby life saving deserves a great deal of credit and every public-spirited citizen should encourage this association.

The Third Annual "Baby Day" was observed in the City Hall Auditorium, on May 12, 1926, by the Berlin Child Hygiene Association in co-operation with the Department of Health. Articles necessary in the care and feeding of babies were displayed in booths, 124 babies were registered during this day. It was very encouraging to see the large number of mothers attending this baby exhibit, and getting instructions from the baby clinic physicians.

The following is a report of our Infant Welfare Nurse, who also works in close co-operation with the Berlin Child Hygiene Association, and she deserves a great deal of praise for her endeavors in increasing the number of babies under supervision, from 347 in April to the present total of 533.

1923	541	52	96.1
1924	556	44	79.1
1925	515	45	87.3
1926	533	35	65.7

COMMUNICABLE DISEASES

Eight hundred seventy-four cases of communicable diseases were reported to our department during 1926. Prompt reporting of a case of communicable disease aids in the control of these diseases. The State Law requires that whenever any person knows or has had reason to believe that any member of his family or household (boarder, roomer or visitor) has either smallpox, diphtheria, membranous croup, scarlet fever, typhoid fever, measles, or any other malignant communicable disease, he shall, within twenty-four hours, if no physician is in attendance, give notice thereof to the local board of health. This notice shall be given either verbally to the health officer, or by a communication addressed to the board of health and duly mailed within the time specified. The most efficient agents in the discovery of mild cases are the public health, school, and district nurses. There information may be obtained through the schools or by house-to-house visitations. They will obtain information from neighbors when members of afflicted families try to conceal cases. We are deeply concerned with discovering the source of every case of communicable disease.

Table No. 10. Shows number and classification of disease as reported monthly by doctors, nurses, and parents during the year, most of which were investigated.

1926	Jan	Feb.	Mar.	Apr.	May	June	Jul.	Aug.	Sept.	Oct.	Nov.	Dec.	Total

TUBERCULOSIS

Tuberculosis constitutes one of the largest and most neglected of all problems with which a community has to deal. The management of the tuberculosis problem is a severe test of a community's activity, judgment, and influence, for the treatment and prevention of the

disease involves during a long series of commonplace acts by the patient, his family, his physician, and often by social organization. For the purpose of stamping out this disease the New Hampshire Tuberculosis Association was organized and incorporated. Mrs. Emma B. Bigelow, Coos County Tuberculosis Nurse, has charge of the tuberculosis work in Berlin and also the entire county.

Mrs. Bigelow deserves a great deal of praise for her whole-hearted spirit of service to this work.

Fifty-two cases of Tuberculosis, all forms, were reported in 1926. The following is Mrs. Emma B. Bigelow's report of the work done in Berlin during 1926:

EMMA B. BIGELOW, R. N.,
N. H. Tuberculosis Ass'n Nurse.

VENEREAL DISEASES

Undoubtedly there are more cases of venereal diseases existent in this city than were reported to this department. State Laws require that syphilis, gonorrhea and chancroid, designated as venereal diseases, are declared to be contagious, infectious, communicable and dangerous to the public health. Any physician or other person who makes a diagnosis in or treats a case of syphilis, gonorrhea or chancroid, and every superintendent or manager of a hospital or institution in which there is a case of venereal disease, shall report such a case immediately in writing, in a sealed envelope, to the local health officer, he in turn shall report weekly to the State Board of Health. Under this law druggists are forbidden to prescribe for venereal diseases.

VACCINATION OF SCHOOL CHILDREN

Public Health Laws of this state require that no child shall attend any public, parochial or private school unless he has been vaccinated, or has had the smallpox, and this shall be enforced by the board of health, the board to issue certificates of vaccination upon the advice of the registered physician, approved by the board. Certificates of vaccination are very handy, in fact, when one travels abroad, where proof of vaccination against smallpox is absolutely necessary.

The standard method of vaccination recommended by the New York State Department of Health, is the method used by our department. We obtain our vaccine virus from New York City Health Laboratories, where it is prepared under the supervision of the United States Public Health Service. Individual tubes of vaccine virus are used for each person, a clean, sterile needle is used only once, and then thrown away. The actual vaccination consists of placing a small drop of vaccine on the skin, with a sterile needle to make a scratch upon the skin through the vaccine, and allow the vaccine to dry. Usually in a year the scar caused by the vaccination is barely noticeable.

433 school children were vaccinated during 1926, under the supervision of this department.

LABORATORY

The routine work of the Laboratory consists of: The examination of swabs, and cultures from throats of suspected diphtheria cases. The examination of sputums for the detection of tubercle bacillus. The examination of smears for gonorrhoeal infections. The bacteriological examination of the city water supply, bottled water sold in the city, and private wells and springs. The routine examination of all milk, cream and ice cream samples from supplies sold in

the city. On all routine milk samples a chemical analysis is done in addition to the bacteriological examination.

Microscopical examinations:

Disease	Total	Positive	Negative
Diphtheria	58	32	26
Gonorrhea	27	21	6
Tuberculosis	24	1	23
Tuberculosis (Sputums forwarded to the State Laboratory)	42	6	36
Bacteriological examination of water:			
City water			34
Private owners (official)			18
Private owners (unofficial)			8
Samples of water for chemical and bacteriological analysis for- warded to the State Laboratory:			
City water			21
Private owners (springs and wells)			32
Milk—chemical and bacteriological analysis:			
Chemical tests (official)			61
Chemical tests (unofficial)			18
Bacteriological (official)			33
Bacteriological (unofficial)			11
Analysis of liquors, beers, cider, etc.			12

We have received from the State Laboratory and distributed free of charge to the physicians the following Diphtheria Antitoxin:

20,000 units	12 packages
10,000 units	39 packages
5,000 units	35 packages
1,000 units	51 packages
Containers for "Wasserman Test"	156
Containers for "Gonococcus" smears	36
Containers with "Sputum Bottles"	48
Containers for "Diphtheria Swabs"	60
Vaccine Virus from the N. Y. City Laboratories	945 tubes
Rabies Vaccine from H. K. Mulford Co., Boston, Mass.	1 treatment

Our Laboratory is used every Thursday afternoon by the Baby Clinic physician and nurse for their regular clinic and one afternoon and evening per month for the Tuberculosis Clinics.

MILK

The complexity of the problem of furnishing the consumer with pure milk at all times is increasing through the fact that whereas, formerly milk was consumed within a few miles of its production, it

DEPARTMENT OF HEALTH LABORATORY, BERLIN, N. H.

is today, in many instances, received from dairies many miles from Berlin. Together with the rapid increase in the city's population, has been the increase in other sanitary inspections and the lack of specific milk ordinances presents most difficult obstacles in dealing with some dairymen. We have a great many small dealers and producers in this city. Strict supervision of all milk dealers additional to other routine work of this department is practically impossible for one person. State Laws require that all milk producers and dealers who make a business of selling milk, skim milk or cream, or offer for sale, or having in his possession with intent to sell, milk, skim milk or cream unless a license has first been obtained shall be fined not more than ten dollars for the first offense; and for any subsequent offense he shall be fined fifty dollars. The sum of two dollars is required for a dealer's license. Any person selling only the production of his own cows shall be exempt from paying any fee for such license. Being guided by the above we have issued fifty-eight "Milk Producers License" and one hundred and one "Milk Dealers License."

We have a city ordinance which states "That the condition under which every cow is kept whose milk is kept or sold or exposed for sale in the city of Berlin shall be known to the Board of Health, if said Board shall deem it necessary.

"Section 2. No milk shall be sold or offered for sale unless the cow is free from disease dangerous to public health." Being guided by this section we proceeded at once to make a survey of all milk producers and dealers to make sure that their cows were free from tuberculosis. The Bovine abortion is an exceedingly widespread disease of cattle and has never been controlled to the extent of generally excluding it entirely from even the most carefully supervised herds. The United States Department of Agriculture is doing splendid work in this line of endeavors. During the month of September 368 cattle in, and in the vicinity of Berlin, were tested. Seventeen of these cattle reacted and were shipped away to be slaughtered under federal inspection.

WATER

The present supply of water has never proved satisfactory. For many years it has been open to criticism both as to its physical character and because of an infectious hazard due to periodic use of inadequately treated Androscoggin River water.

The main source is in some brooks, the water of which is collected in a number of storage and distribution reservoirs. Because of the fact that these brooks drain a region heavily wooded with coniferous growths and which tends in some places to be swampy, this

water has always shown a substantial coloration as well as more or less turbidity. For this reason it has never been popular with the consumers. At no time, however, has this brook reservoir supply proved adequate for the demand and it has accordingly been necessary during various periods of practically every year to pump river water into the city mains from what is now the system of Sulphite Mill, Brown Company. Such water is, from the standpoint of domestic use, very inadequately filtered, and its employment has always constituted a material hazard, in consequence of some changes in the location of the intakes and the growth of the city, has in recent years become quite serious. To offset this, in a measure, the river supply, when being used, is subjected to a treatment of liquid chlorine. However, simple chlorination for a source such as the Androscoggin River in Berlin is far from being a sufficient treatment. The logging operations necessarily involves some contamination, both bacterial and physical, so that nothing short of treatment by an adequate process of filtration supplemented by chlorination could properly be considered sufficient as a prerequisite for obtaining a safe and satisfactory supply from the Androscoggin River.

Early in 1925 the city negotiated with the Berlin Water Company for the purchase of same. During the process of these negotiations and while a charter bill was pending in the Legislature, the City was notified by the State Board of Health that in the event of purchase it must understand that use of the river source would be sanctioned only upon the installation of adequate treatment. A clause in this charter provides "That no source of water supply and no land necessary for preserving the quality of the water shall be acquired or taken without first obtaining the approval of the State Board of Health, and that the location of all dams, reservoirs, wells or filter galleries, to be used as sources of supply under this act shall be subject to the approval of said board." After considerable investigation and survey from the state, city, and private engineers, it was finally decided that the upper Ammonoosuc River supply would be the most feasible, adequate and reasonably good quality, and as free from risk of contamination as could possibly be said of any stream source. Accordingly, approval was given to this source by the State Board of Health on September 1, 1926, under the conditions that chlorination be included and that all connections with the Androscoggin River source be henceforth either absolutely severed or else protected with Special Double Check devices. Work has already begun and the Water Commissioners have awarded several contracts toward our new water supply. It is expected that this supply will be installed not later than July 1, 1927, and it surely will be a most welcome relief for the citizens of Berlin.

SANITATION

Food sanitation has taken much of our time, primarily in the form of inspections and instructions to storekeepers and food handlers. In general the food stores were in a fairly good condition. A number of fruit stores were made to understand that the display of fruits on the sidewalks without proper protection to street dust is against the State Law, and this practice was stopped. This applies to fruits liable to be eaten without peeling or washing, must be protected, whenever directly exposed to street dust.

Sixty-four complaints were received from citizens since April 1st. All were investigated and in most part settled to the satisfaction of all concerned. A good many times complaints are received by this department, of such a nature that they have to be referred to the police department for investigation.

The general sanitary condition of the "Barber Shops" could be improved somewhat; several barbers had to be instructed on the sanitary management of their shops—twenty-six barber shops were inspected, fourteen were found to be clean, eight moderately clean, and four were dirty.

PAINT UP AND CLEAN UP

Our annual "Paint-up and Clean-up Week Campaign" took place during the last week in May and same proved to be a success from the standpoint of cleanliness. Committees, composed of prominent citizens, were appointed to aid in this movement. Several prizes were offered by citizens and organizations to encourage school children in taking part in this worthy movement.

Paint-up and Clean-up contest was carried on for any boy or girl in this city below the ninth grade, making the best poster, advertising, describing or amplifying, the need of clean-up and paint-up, and also for the best essay written on the purpose and benefit derived from Clean-up and Paint-up. Ninety posters and forty essays were submitted to the judges for prizes. One of the grade schools submitted a poster in the form of a graph, which was most interesting. The pupils in that grade inspected 1,750 yards before Clean-up Week and found that 32 percent of them were dirty, 40 percent clean and 28 percent moderately clean. After the Clean-up Week the same yards were inspected and only 13 percent found to be dirty and 63 percent of them clean, which shows at a glance that when the proper stimulus is given to the public, and one made to understand the benefits we can derive from such they will usually respond with enthusiasm.

During the month of September the so-called "Dead River" was cleaned up, notices were posted in conspicuous places along the river

near Main and Pleasant Streets prohibiting the public from throwing rubbish of any description in this river. With the co-operation of the "Public Works Department" fifteen to twenty loads of rubbish were removed from this river. Arrangements have been made with the police department to bring in before the courts any offenders who deliberately throws rubbish in this river, and they would be prosecuted to the full extent of the law. This river had been an eye sore to the citizens of Berlin for many years. It had been used as a public dumping ground by most any one living along the river. This practice was stopped, and people living along the river provided themselves with garbage cans, and same is now collected by the city.

RECOMMENDATION

That a city ordinance be passed concerning the medical inspection of all schools in the city for vaccination, contagious or communicable diseases and other ailments or conditions which hinder the efficiency of school work or endanger the public health.

That a Public Health Nurse be employed by this department to take care of the School Medical Inspection follow-up work.

Respectfully submitted,

E. A. MARCOUX,
Health Officer.

Assessors' Report

Berlin, N. H., January 31, 1927.

To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:—We submit herewith our report for the year ending January 31, 1927, the same being the thirtieth annual report of the City of Berlin.

The inventory of all taxable property shows an increase of \$882,907.00 over that of 1925.

The following is our valuation for the year 1926:

Land and buildings	\$9,609,605.00
Horses	27,840.00
Cows	12,170.00
O. N. stock	250.00
Hogs	185.00
Vehicles	7,250.00
Stock in trade	3,007,366.00
Mills and machinery	8,832,765.00
Pumps and oil tanks	48,060.00
<hr/>	
Total	\$21,545,491.00

We wish to express our appreciation for the courtesy and assistance given us during the year by His Honor, the Mayor, and other members of the City Government.

Respectfully submitted,

JOHN B. NOYES,

WALDO BABSON,

ALFRED LAUZIÈRE,

Assessors.

Report of City Clerk

Berlin, N. H., January 31, 1927.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:—

I herewith submit my report as City Clerk for the year ending January 31, 1927.

I have collected for the City of Berlin and credited to the appropriate departments the following sums:

Automobile taxes	\$21,054.83
Dog taxes	1,010.90
Transfer account	2,285.05
City Hall	1,078.00
Taxes sales	5,527.59

Report of Library Trustees

To His Honor, the Mayor, and City Council of the City of Berlin:

The Board of Trustees of the Berlin Free Public Library herewith submit their thirty-fourth annual report, together with the treasurer's statement and the librarian's report:

The interior of the library has been renovated during the past year, and the freshly painted plaster, newly varnished wood-work and new window shades present an attractive appearance to library visitors and patrons. The Juvenile Department was also freshly painted and a large new reading table, and eight new chairs were recently placed there for the use of the children.

The librarian's report shows the increased service the library is giving the public. The yearly circulation of books shows an increase of nearly 12,000 over the preceding year and the reports from each department of the library are very favorable. The Children's Department is crowded daily, and special events are planned from time to time to increase the interest of the children in the library.

The policy of the Board of Trustees during the past year has been to improve the library building as much as possible with the amount of money appropriated for that purpose. The repairs and improvements made are of lasting value and will add to the service-rendering qualities of the library in years to come.

We recommend that the Council appropriate a sum sufficient to make alterations in the boiler room for the purpose of giving sufficient heat in the Juvenile Department.

Respectfully submitted,

JOHN J. SMITH,

DR. E. R. B. McGEE,

MRS. MARGARET PINGREE,

Library Trustees.

Treasurer.

Librarian's Report

To the Board of Trustees of the Berlin Public Library :

The thirty-fourth annual report of the Librarian of the Berlin Public Library is herewith submitted :

The circulation statistics appearing at the end of this report show that 73,019 books were loaned from the library during the year 1926, an increase of 11,497 books over the preceding year.

982 new borrowers' cards were issued during the year, and many non-residents applied for temporary borrowers' cards.

The reference room has been crowded daily, after school hours, with high school students seeking information from reference and text books placed there for that purpose. Many adults also use this room extensively. Telephone calls from people seeking reference data and information have increased surprisingly and the telephone has become an indispensable and invaluable asset to the library in rendering service to library patrons.

Much important work has been accomplished in the library outside of library hours during the past year. Government documents deposited in the library from various sources and never recorded, have been carefully recorded, indexed and filed and are now available for public use. Among these old documents was an old newspaper clipping, "Traditions and Recollections of Early Berlin," by Davis, originally appearing in the old "Berlin Independent." This has now been published in book form, and copies are available for purchase at the library. Many copies of this interesting and historical book have already been sold.

The card catalog in the lobby of the library has been badly in need of attention for a long time. The books in the library have been given a complete inventory, and has been partially recataloged. We hope, in time, to have an accurate card index for the use of library patrons.

The Juvenile Department continues to be a popular gathering place for the children, and their room is crowded daily with eager readers. Owing to the generosity of the Woman's Club and the kindness of Mr. Gilbert, a special motion picture program was arranged to be shown on one afternoon of Children's Book Week. The picture was entirely free to school children and the Albert Theatre

was filled to capacity on the appointed afternoon. The pictures were both instructive and entertaining and were especially appropriate for Book Week. Story hour was held on two afternoons of that week and there was a large attendance of children on both of these occasions. We wish to thank the Woman's Club for their hearty co-operation, Mr. Gilbert for the use of the Albert Theatre, and the teachers who kindly gave their time and services for story hour.

Many new books were added to the library in 1926. In selecting books every consideration has been given to the various tastes in reading of our library patrons, and every effort has been made to meet the individual demands of every class of readers. We have also tried to co-operate with the public and parochial schools by obtaining books required by the curriculum of the schools.

To the Woman's Club, the Friday Reading Club, and to the various individuals who donated gifts of money or books to the library during the past year, we wish to extend our heartiest thanks.

Report of the City Solicitor

Berlin, N. H., January 31, 1927.

To the Honorable Mayor, and City Council of the City of Berlin:

I beg to herewith submit my report as City Solicitor for the fiscal year ending January 31, 1927.

At the time I assumed the duties of this office the following cases were on the docket of the Superior Court for this County:

City Bowling Alleys v. City of Berlin.

Anthony Oeschger v. City of Berlin.

S. Zolofski v. City of Berlin.

Salvatore Morando v. City of Berlin.

International Paper Company v. City of Berlin.

M. Treamer v. City of Berlin.

A. N. Bertrand v. City of Berlin.

George Ryder Estate v. City of Berlin.

The first four of the above named cases were instituted in the year 1917, and all actions were instituted for the purpose of recovering alleged damages sustained to their premises by reason of flowage from Dead River.

These cases were on the docket for ten years, and under arrangements, approved by the Honorable Mayor and City Council, they were disposed of by having an entry made on the docket of the Superior Court in each and every case as follows:

"Judgment for the defendant, upon payment of costs of one hundred dollars (\$100)." The cases, if ever tried, would undoubtedly have resulted in a verdict for the City, nevertheless, from experience gained in previous litigation covering practically the same issues it would have been utterly impossible to have tried the cases without great expense to the City, and much more would have been paid out than the amount above specified. The settlement was also approved by various attorneys who had been retained from time to time by former administrations.

The case of the International Paper Company v. City of Berlin, which has been pending on our Court Docket for the past six years was also disposed of during the past year; the Presiding Justice at the December Term having ordered a non-suit, thus ending up another long standing action.

The agreement entered into by and between the former Solicitor, Robert Rich, Esq., and Counsel, for the estate of George Ryder, has been complied with by the Public Works Department, and this action will therefore be removed from the docket. Thus only two civil cases are still pending against the City, as follows:

M. Treamer v. City of Berlin.

A. N. Bertrand v. City of Berlin.

During the past year there have been no new civil actions instituted against the City, except the Equity proceedings instituted by various taxicab drivers in connection with the Ordinance requiring them to furnish bonds. This case was heard before the Superior Court, and the matter is now before the City Council.

All duties connected with the Municipal Court have been fulfilled, numerous opinions have been rendered through various officials, including the Berlin Board of Water Commission, various contracts and agreements drawn at the request of this and other departments, and all duties incidental to the work of the City Solicitor have been complied with.

I wish to take this opportunity to extend my sincere appreciation to the Honorable Mayor and City Council, City Clerk, and other members of the City Government for the very many courtesies extended during the past year.

Respectfully submitted,

MATTHEW J. RYAN,

City Solicitor.

Report of Municipal Court

Berlin, N. H., January 31, 1927.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:—

I herewith submit my report as Clerk of the Municipal Court for
the year ending January 31, 1927.

Amount received from February 1, 1926, to and including January 31, 1927	\$14,342.19
Amount paid, fines to State and County, local warrants, fees, etc.	1,765.70

Amount paid to Treasurer	\$12,576.49
--------------------------------	-------------

Respectfully submitted,

HENRY M. MOFFETT,
Clerk of Municipal Court.

Report of City Engineer

Berlin, N. H., January 31, 1927.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:—

I respectfully submit herewith the report of the Engineering Department for the year ending January 31, 1927. The following will be an outline of the work carried on by this Department, as a more complete list of the work done, showing the costs will be in the report of the Public Works Department.

The usual routine work of the Department has been carried on as usual, records have been kept of the location of sewers, manholes and cemetery lots, lines and grades given for new houses, house numbering, investigation of gasoline pump locations.

The largest single job of the Department was the Water Works survey. A complete survey has been made to Godfrey Dam on the Ammonoosuc River for the purpose of establishing a line for a water pipe to furnish the city with an additional water supply. This survey has taken almost a year of careful investigation to finally establish a line that the pipe could be laid to get the shortest distance and a grade that would be suitable to lay the pipe. This line has finally been established and the right-of-way has been obtained from the property owners and has been cleared to a width of twenty-five feet. A survey was also made to connect the proposed system with the present system, with a low pressure line connecting on School Street and a high pressure line to run up Hillside Avenue to Cedar. Work done in this vicinity of Godfrey Dam included a survey of the dam site. The laying out of a contour at elevation 1,505 (above sea level) that all trees and brush could be cleared from the flowage of the new dam. The location of a gravel bank large enough to furnish gravel for the construction of the dam and taking samples and testing the gravel found.

Measurements of the flow of the river have been taken at regular intervals for the last eighteen months. We found that there is an abundance of water for the present and future needs of the city.

Surveys, plans and estimates of the cost have been made for all the work done by the Department of Public Works; a list of the more important jobs will be shown in the report of that Department.

Preliminary plans have been made of a combination grade school and fire station for the east side of the river. This building will also have a room that can be used for voting and assembly purposes.

Plans have been made for the laying out and narrowing of Madison Avenue and Grafton Street, and plans are being made at the present time for the remodelling of the interior of the Central Fire Station.

A new plan file has been purchased by this Department. This is of a fireproof construction and will protect all of the plans and old records of the city which have been reindexed and filed. There are between two and three thousand plans indexed in this file and many are valuable as they record many of the original lines and grades of the city.

In closing I wish to thank the Mayor, the City Council, City Officials and residents of the City for the hearty co-operation given the Department during the past year.

Respectfully submitted,

FRANCIS L. BRANNEN,
City Engineer.

Report of Overseer of the Poor

Berlin, N. H., January 31, 1927.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:—

I herewith submit my report as Overseer of the Poor for the year ending January 31, 1927, which shows the appropriation overrun \$882.34.

This was unavoidable, as the amount appropriated for 1926 was too low, figuring the help that had to be given to different people in this City. At present the City is supporting five families and I can see that they will remain the rest of the winter.

We had also, during the year, a few children who were boarded at the County Farm, and others who were supported in the City on account of the father being at the House of Correction for violation of the liquor law.

I do not know of any actual suffering and have investigated all cases coming to my attention and rendered aid where it seemed needed.

I desire to thank all members of the City Government for courtesies extended me, especially Mayor King, whom I had occasion to consult often.

Respectfully submitted,

NAPOLEON HEROUX,

Overseer of the Poor.

Public Works Department

Berlin, N. H., January 31, 1927.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:—

I submit to you the report of the Department of Public Works for the year ending January 31, 1927. The work done by the Department this year has been of a permanent nature, very little money has been expended on temporary or cheap construction. The policy of the Department has been to organize the work in such a manner as to provide as much work as possible for the unemployed citizens of the city as is consistent with the general plan of economy.

STREET MAINTENANCE—This account includes sweeping and repairing all streets, painting and repairing guard rails and fences, the care of bridges and culverts, plowing and removing snow, sanding sidewalks and the upkeep of two ice rinks for the children. We were very fortunate in not having heavy rain or hail storms this year. The above account shows a total of thirty-five thousand eight hundred eighty-one dollars eighty-five cents (\$35,881.85), being about the same as it was last year.

ROAD MAINTENANCE—This account takes care of the general upkeep of all our roads outside the compact limit of the city, such as Jericho, Cates Hill, Croteau Hill and the east side of Milan Road. This account shows a total of five thousand sixty-four dollars (\$5,064.00).

SEWER MAINTENANCE—This account takes care of the payroll of a small crew for emergency and general repairs for the entire sanitary and surface water system. This account shows a total of twenty-one hundred and twelve dollars (\$2,112.00), being seven hundred and ten dollars less than last year, due to the fact that we did not have any real heavy storms.

OFFICE—This account takes care of the general office expense, including all material and supplies and the payroll of the bookkeeper and timekeeper. This account shows an increase of seven hundred dollars (\$700.00), the cost of a filing cabinet.

ENGINEERING—This account takes care of all expenses incidental to this department and shows a total of one thousand one hundred ninety-eight dollars and eighty-two cents (\$1,198.82). This

account is six hundred dollars (\$600.00) less than last year, due to credits from the Water Survey.

TOOLS AND EQUIPMENT—This account takes care of the cost, upkeep and replacement of all tools and equipment, from small tools to tar kettle and concrete mixer. This account is practically the same as last year.

ASPHALT CONCRETE PAVING—School Street, between First and Third Street, was paved this year. This work cost two dollars and fifty cents (\$2.50) a yard, including the cost of grading, shaping, etc.

KENTUCKY ROCK ASPHALT—This material is an experiment with us this year. We laid twelve hundred sixteen yards (1,216) on Mason Street this year at a cost of one dollar and sixty-five cents (\$1.65) per yard. A short section was laid on Main Street at the end of Third Street. This was put in for experimental purposes. This material seems to be wearing good and would be an ideal material to cover Main Street in the event that the railroad tracks could be removed.

WATER BOUND MACADAM—The following streets were paved with water bound macadam: First Avenue, Madigan Street, Granite Street, Park Street, Portland Street, Willard Street, Fifth Street, Main Street, Norway Street, Champlain Street and Grafton Street. This work was done at a cost of one dollar and fifty cents (\$1.50) a yard.

CONCRETE SIDEWALKS—Concrete sidewalks were built on Third Avenue, Wight Street, Western Avenue, Hillside Avenue, Pine Street, Park Street, State Street, School Street, Norway Street, Elm Street, Burgess Street, Rockingham Street, Grafton Street, Hillsboro Street and Mason Street. This work cost two dollars and thirty cents (\$2.30), including grading.

CONCRETE SEWER PIPE—We have made about one hundred feet of twenty-four and eighteen inch concrete sewer pipe and find that we can manufacture this pipe as cheap as it can be bought. This will be a big advantage to the department, as we can use our own men during the winter months manufacturing this pipe, thus employing local labor and saving on the cost of the pipe.

WEST MILAN ROAD—We built one mile of gravel road this year. This was built at a cost of eleven thousand two hundred dollars (\$11,200.00). This exceptionally low price was due to the fact that the road was laid out in a manner that we could obtain our gravel from the cuts and that no large fills were encountered. We still have two miles to build to complete this project.

SESSIONS STREET—Two thousand cubic yards of ledge was blasted out and the street graded. The rock was hauled to the crusher to be used for street paving. The cost of the job was five thousand three hundred and ninety-five dollars (\$5,395.00).

MADIGAN STREET—A twelve-inch surface drain was laid, ledge removed and the street paved as far as Fifth Avenue. The cost of this job was four thousand two hundred and eight dollars (\$4,208.00).

THIRD AVENUE AND WIGHT STREET SIDEWALK—A concrete sidewalk was built from Mannering Street to Broad Street at a cost of nineteen hundred dollars (\$1,900.00).

HILLSIDE AVENUE SURFACE DRAIN—Three hundred and twenty-four feet of eighteen-inch surface drain was relaid on Hillside Avenue at a cost of fifteen hundred and eleven dollars (\$1,511.00).

GRANITE STREET WATER BOUND MACADAM—This street was paved from School Street to York Street at a cost of thirteen hundred and sixty dollars (\$1,360.00).

WILLARD STREET WATER BOUND MACADAM—Willard Street was paved between State and Portland Street at a cost of ten hundred and thirty-two dollars (\$1,032.00).

SCHOOL STREET BITUMINOUS MACADAM—This street was paved between First and Third Streets, the sewer lowered, man-holes built, a concrete wall on the easterly side and a concrete sidewalk on the westerly side of the street. The cost of this job was four thousand five hundred and seventy-nine dollars (\$4,579.00).

SIXTH AND NORWAY STREET SEWER — The surface drain from Main Street was extended up Sixth Street, Norway Street and Seventh Street, a distance of seven hundred forty feet (740), at a cost of thirty-one hundred and seventy dollars (\$3,170.00).

FIFTH AND NORWAY STREET WATER BOUND MACADAM—Fifth Street was paved the full length and Norway Street paved between Fifth and Seventh Streets at a cost for the two jobs of twenty-seven hundred and sixteen dollars (\$2,716.00).

NORWAY STREET SIDEWALK—A concrete sidewalk was built on Norway Street between Seventh Street and Ninth Street at a cost of thirty-two hundred and four dollars (\$3,204.00).

ELM STREET SIDEWALK—A concrete sidewalk was built on Elm Street at a cost of eleven hundred and seventy dollars (\$1,170.00).

CHAMPLAIN AND GRAFTON STREET WATER BOUND MACADAM—These streets were paved between Mason and Burgess Streets and a sidewalk built on Grafton Street at a cost of seventeen hundred and sixty dollars (\$1,760.00).

ROCKINGHAM STREET SIDEWALKS—Two sidewalks were built on Rockingham Street at a total cost of twenty-four hundred and eighty dollars (\$2,480.00).

BURGESS STREET—A concrete sidewalk was built on the westerly side of Burgess Street between Merrimac Street and Thomas Street; the sewer was lowered and the road graded to the end of the street. The total cost of this job was sixty-one hundred and seventy dollars (\$6,170.00).

The above is only a part of the larger jobs done by the Department.

The Mayor and the Committee, in recommending the work for this last year, investigated all conditions thoroughly before ordering any work done, then recommending the jobs that would serve the public to the best advantage.

The books and office of the department are open to any citizen desiring any information not given in this report.

The following is a list of the sewers laid by this department during the year:

Gordon Avenue	76 ft. 8-in. Pipe
Guillmette Street	184 ft. 6-in. Pipe
Madigan Street	40 ft. 6-in. Pipe
	258 ft. 12-in. Pipe
	231 ft. 8-in. Pipe
First Avenue Culvert	181 ft. 18-in. Cement
Hillside Avenue	342 ft. 18-in. Cement
Grafton Street	65 ft. 6-in. Pipe
King Street	95 ft. 6-in. Pipe
Cascade Street	309 ft. 8-in. Pipe
Norway Street	282 ft. 18-in. Pipe
	62 ft. 15-in. Pipe
Seventh Street	211 ft. 8-in. Pipe
Fifth Avenue	222 ft. 6-in. Pipe
Kent Street	808 ft. 6-in. Pipe
Burgess Street	451 ft. 6-in. Pipe
Sullivan Street	87 ft. 6-in. Pipe
Lincoln Avenue	138 ft. 8-in. Pipe
Coos Street	128 ft. 8-in. Pipe
Pleasant Street Overflow	175 ft. 15-in. Pipe
	60 ft. 15-in. Gal. Iron
Third Avenue	38 ft. 6-in. Pipe
Glen Avenue Culvert	40 ft. 15-in. Gal. Iron

In closing I wish to express my thanks to the Mayor, City Council, Public Works Committee, and the residents of the City for their hearty co-operation during the past year.

Respectfully submitted,

FRANCIS L. BRANNEN,
Superintendent Public Works.

PUBLIC WORKS INVENTORY

One steam road roller (with scarifier)	\$3,000.00
One concrete mixer and boiler	450.00
One large road machine	100.00
One small road machine	100.00

W. B. GENDRON,
City Treasurer.

Financial Reports

Municipal Regulations

FOR THE PAYMENT OF ALL BILLS AGAINST THE CITY

All bills against the city must be approved by the person authorizing the charges, unless this is done no action can be taken upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment. When bills are certified as to above, and left with the City Clerk not later than 12 m., on the Saturday preceding the first Tuesday of each month, they will be audited by the Committee on Accounts and Claims and if approved by them and allowed by the Council, will be ready for payment on the following Thursday at the office of the City Treasurer.

Meetings of the Committee on Accounts and Claims are held on Monday preceding the first Tuesday of each month, and the regular

Meetings of the City Council are held the first Tuesday of each month at 8 o'clock p. m.

SECOND ANNUAL REPORT
OF THE
WATER WORKS
OF THE
CITY OF BERLIN, N. H.
FOR THE YEAR ENDING
JANUARY 31, 1927

Berlin Water Board—1926

Chairman

GEORGE F. LOVETT

Members of the Board

Eli J. King, Mayor, Ex-officio.

John J. O'Connell Term expires May, 1930

Otto J. A. Dahl Term expires May, 1929

George F. Lovett Term expires May, 1928

Thomas H. Samson Term expires May, 1927

John J. O'Connell, Clerk.

Wallace Graves,
Superintendent.

Ernest E. Tankard,
Asst. Superintendent.

George T. Leclerc,
Cashier.

Commissioners' Report

December 31, 1926.

To His Honor, the Mayor, and City Council of the City of Berlin:
Gentlemen:—

We hereby submit the Annual Report of the Water Department for the year 1926, the first full year of operation since its purchase from the Berlin Water Company.

It is gratifying indeed, to report that the Total Gross Income has increased approximately \$6,000.00 over last year, which is due to new services added to the system, most of which additions, together with other betterments and improvements, have been financed from the year's earnings.

It has been the policy of the Commission to leave nothing undone that might benefit the Consumer, such as the laying or relaying of service pipes from the Main to the Consumers' property line, heretofore paid for by the Consumer. Also the elimination of the \$5.00 Demand Charge for the thawing of water within the consumers' property, a charge now being made only for the actual time used in making the thaw, using new and up-to-date apparatus purchased solely for the purpose of reducing the charge to the Water Taker.

Your Commission, during the past year, have made definite progress in the matter of increasing the Water Supply. After much thorough investigation it was decided that the Upper Ammonoosuc River afforded an ideal gravity supply, which source of supply, both physically and financially, would be for the best interests of the City. However, this project was held up until the State Board of Health approved the said Source of Supply, in the meantime pending its approval or disapproval, the only expenditures being made were for preliminary surveys to determine the elevation and quantity of water flowing. Samples of water were taken at three-week intervals and sent to the State Board of Health at Concord for analysis for an entire year, after the expiration of which the State Board of Health finally approved this Source as an additional water supply, September 1, 1926.

Immediately upon receipt of this approval the Commission voted to engage a Consulting Hydraulic Engineer, turning over all surveys, etc., of our City Engineer, F. L. Brannen, to Paul L. Bean, of Lewis-

ton, Maine, who has had much experience with the Water Sheds of this vicinity. Mr. Bean has gone over the ground from the proposed intake at Godfrey Dam, so-called, to Berlin and is very much impressed with the whole situation. The Ammonoosuc Source of Water Supply is within the White Mountain National Forest, which has more or less protection from possible pollution not afforded other water sheds. Mr. Bean made many changes in the right-of-way before his approval, eliminating expense wherever possible by avoiding pressure at certain points. The Water Conduit Right-of-Way has been cleared by contract and at the present writing work is progressing on the clearing of the Dam Site and Proposed Reservoir. Bids are also out for the pipe and will be awarded within a comparatively short time.

You may be assured that your Commission will do everything possible to expedite the work now in progress to avoid using the auxiliary system, i.e., pumping of water from the Androscoggin River.

We would respectfully refer you to the accompanying reports of the Superintendent as to its physical condition and to the City Auditor for the financial condition, also to the City Engineer's report as to the progress in detail of the Additional Water Supply of the Department.

Very respectfully submitted by,

GEORGE F. LOVETT, Chairman,

JOHN J. O'CONNELL, Clerk,

OTTO J. A. DAHL,

THOMAS H. SAMSON,

E. J. KING, Mayor.

Berlin, N. H., December 31, 1926.

Report of the Superintendent

To the Honorable Board of Water Commissioners:
Gentlemen:—

In presenting this, my second annual report, I wish to emphasize the fact that it has been the policy of the Water Department to strive to serve the users of water, and at the same time work for the interest of the department.

The Blais Park additions to our water system, which was started the latter part of 1925, is now completed. Part of the job was finished in February, 1926. This addition consisted of the laying of 1,100 feet of 6-inch pipe, 650 feet of 2-inch pipe, fourteen new services and one hydrant. There still remained sixteen property owners who wanted water, all of whom were too high for the gravity system to supply. Of these, seven were located on the southerly side or upper part of Kent Street, three on the upper part of Forbush Avenue, four on Trudel Street, and two on Grafton Street. The two on Grafton Street already had water, but were too high to be supplied all of the time. Several schemes were considered in an effort to find a suitable, and, at the same time, economical way to supply the houses. An 8-inch line was considered from Anderson reservoir to Kent Street, but was finally abandoned as the expense was prohibitive. Another idea was, to couple together some springs located in a pasture near the Success line; this also was abandoned, due to the fact that sooner or later they would be condemned and the money invested would be a total loss. Finally, it was decided that the only logical thing to do would be to install, temporarily, a booster pump with storage tank at some suitable elevation to supply this section. Through the courtesy of Mr. Joseph Blais, we obtained, by deed, two lots on Forbush Avenue for water purposes. On one of the lots we erected a wooden storage tank, which we had on hand, having a capacity of 20,000 gallons, at an elevation of 200 feet above Kent Street. Near the junction of Kent Street and Forbush Avenue a small fire proof pump house was erected, in which a Kenny pump of the rotary type, having a capacity of 60 gallons per minute and driven by a $7\frac{1}{2}$ H. P. General Electric motor, was installed. From there the supply was taken directly from the present gravity system and pumped into the elevated tank, which at the present time furnishes the supply for the remaining sixteen houses and two fire hydrants.

It may be interesting to know that 3,540 feet of pipe of the following sizes, 6-inch and 2-inch, is supplied from the tank, each service averaging 208 feet of main pipe. The cost of the job amounted to \$5,638.93. The yearly income from the sixteen services and the two hydrants amounts to \$356.00. The power alone to operate the pump costs \$360.00 per year and with the miscellaneous expense of operation, the cost per year will be about \$700.00, not including the interest on the investment.

This excessive cost seems unwarranted as to income, but there was pressure brought on the department, through the Board of Health, immediately to furnish this section of the city with water, as the water being used by the people of the neighborhood was from badly contaminated springs and dangerous to health.

Service Department

The service department has been unusually active this year, having installed 135 new services from the City main to the street line at the expense of the department; fifty-six old services were relaid from the main to the street line. Of the new services 50 were brass, one was copper, and the remaining 84 were galvanized iron pipe. Forty-four of the relaid services were brass and the other 16 galvanized iron pipe. In 1925 the City's responsibility ended at the City main, in other words, the consumer owned all the pipe from the main to his house. This responsibility taken over by the department, has increased the service account very materially, but at the same time, is a practice carried out by almost every City in the state, that is, of the Water Department owning and controlling the services in the public street and ways.

We have been very unfortunate this year with our cascades services on the Gorham side. The Gorham Water Works have installed a water system of their own and the services which we supplied, totalling thirty, have transferred to that system.

The 21 services on the East Side spring system have also been discontinued, and connected to the regular City mains.

Meter Department

The meter department has set 12 meters on new services, changed 65, and removed three, bringing the total number of meters in use to date to 423, which is 19.1 per cent of the total number of services.

Valves

There has been no valve inspection made since 1918, so this spring all valves were carefully inspected and tested. About 10 per cent of

the valve boxes were either filled up with dirt or too far below the surface. Those were all raised, cleaned out, and put in perfect condition. At the same time all measurements for the various valves were checked up.

Pumping

Our purification and pumping expense was a large item this year, having had to pump a total of 2,042 hours, as against 21 hours in 1925.

Thawing

The thawing account was an expensive item, both to the individuals requiring service, and to the department, due to the fact that a demand charge of \$5.00 was charged for power to operate the thawing machine. The department has purchased a gasoline operated generator set for thawing, and beginning 1927, will only charge the actual cost to thaw the services.

Work Under Construction

Work on the Sixth Avenue pipe line is well under way and we hope to see it completed in the early spring. That consists of the laying of 1800 feet of 6-inch cast iron pipe and two hydrants. The line will be looped with the main line on Wight Street, following up Fifth Avenue to Labossiere Street, thence to Sixth Avenue, and connecting with the main line on Madigan Street.

We expect to start operation on First Avenue in the early spring. About 1800 feet of 6-inch cast iron pipe and three hydrants is to be installed. The line will take its supply from the Western Avenue pipe line by way of Hill Street.

The results of a Venturi test taken on the supply consumed by the City for a period of one week show that the City is not using as much water by 51,500 gallons per 24 hours as of 1925. This, based on a population of 18,700 as of July 1, 1926, 83.12 gallons per capita against 93.46 gallons per capita in 1925.

More detailed information relative to the activities of the department will be found later under different heads.

In conclusion, I wish to thank the members of the Board of Water Commissioners and employees of the Water Department for their hearty co-operation in performing my duties during the past year.

Respectfully submitted,

WALLACE GRAVES,
Superintendent.

Report of Progress Made on New Source of Water Supply from the Ammonoosuc River

The City of Berlin acquired the Berlin Water Works in July, 1925, and assumed control under the direction of Commissioners George F. Lovett, Otto J. Dahl, Thomas H. Samson and J. J. O'Connell. It was well known that existing source of supply was inadequate.

Under the direction of the Commissioners an investigation was made of the present reservoir system in Success township in view of adding additional supply from Horne and Stearns brooks or Success Pond. The amount of water that could be furnished by these streams was found to be inadequate and the project was abandoned.

The Androscoggin River was next investigated. The adequacy of the supply was a positive quantity, but the quality of the water was found to be such that it would have to be filtered and possibly treated to insure water that would be clear and safe for drinking purposes. This condition, together with the fact that a pumping and filter plant and a high pressure reservoir must be built and maintained at an excessive cost, led the commissioners to abandon this project.

The Ammonoosuc River was next investigated. The first investigations were on the flow of the stream, preliminary measurements were taken which showed there was an abundance of water. The quality of the water was next investigated; samples were collected and sent to the State Board of Health Laboratory at Concord. The State Board reported that the samples received were found to be above standard, but before they could recommend this source they would have to make careful analysis of samples obtained semi-monthly for a period of one year. This ruling on so important a factor had to be complied with and as a result the Commissioners were unable to take any further action until they had received a final favorable report from the State Board of Health.

A preliminary line of levels was run to Godfrey Dam on the Ammonoosuc River. The elevation of the old dam was found to be 1484.00, or four hundred and eighty-four feet above Green Square in Berlin. A traverse was later run from Godfrey Dam to the Jericho Road near the Marston barn.

With this preliminary work finished and investigated by the Water Commissioners, they ordered a more careful study of the flow of the stream and watershed above the dam and a permanent location for the pipe line.

The water shed of the Ammonoosuc River is located in the townships of Gorham, Randolph, Jefferson and Berlin, and covers an area of twenty squares located entirely within the limits of the United States Forest Reserve.

Measurements on the flow of the river were taken with a flow meter with the following results:

	Cubic feet per second	Gallons per second	Gallons per min.
January 12, 1926	39.95	199.63	17,977.80
February 25, 1926	31.055	232.87	13,972.00
March 18, 1926	30.50	228.75	13,725.00
July 26, 1926	15.70	117.75	7,065.00
August 12, 1926	12.00 (Float test)	90.00	5,400.00
August 13, 1926	12.95	97.12	6,727.20
January 11, 1927	24.80	186.00	10,800.00

The average yearly precipitation of thirty-eight inches would give 13,381,523,000 gallons per year.

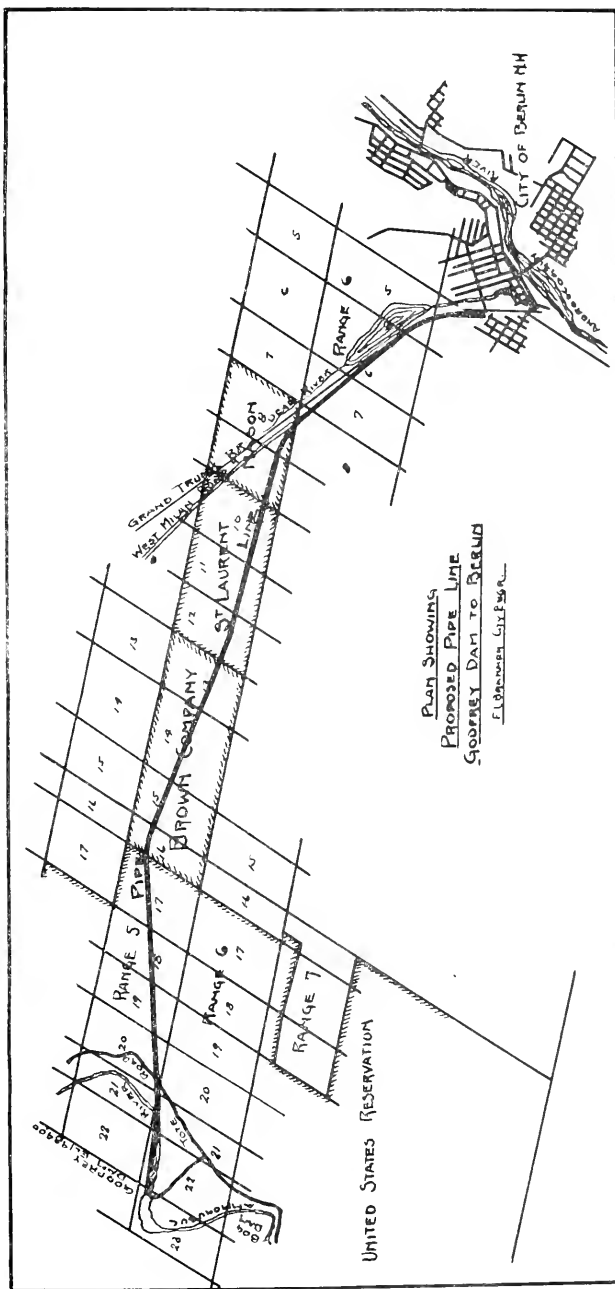

To provide for a future supply and use the Fire Underwriters' recommendation of 2,000 gallons per minute, we have a total consumption of 1,051,200,000 gallons per year. This figure being about one-third of the flow of the river as per August 12, 1926 measurement and about one-sixth of the yearly precipitation.

The United States Weather Bureau's records show that the period preceding August of this year was one of the driest periods on record.

The above figures show that there is an abundant supply of water for present and future needs. *

An investigation of the present site of Godfrey Dam proved it to be an ideal location for the new dam and a survey was made of this site and of the flowage above the dam, in view of determining the capacity of the reservoir, it was found that a reservoir of from six to ten million gallons could be constructed at a relatively small cost.

A survey was made from Godfrey Dam to the city. This work required some time, as the line is over six miles long and the line and grade had to be established that would be suitable to lay pipe and one that would fit hydraulic conditions. This line was finally established, grades taken and plotted. A survey was also made to

obtain data for connecting this proposed system to the present low pressure at School Street and to the high pressure on Hillside Avenue at Cedar Street.

With this information at hand, the Water Commissioners consulted Paul L. Bean, Consulting Engineer, of Lewiston, Maine. Mr. Bean was employed to check over the information furnished and to make plans and specifications necessary to complete this project.

The State Board of Health gave their final approval of the Ammonoosuc River as a source of supply on September 1, 1926.

The matter of the City obtaining permission from the United States Forest Service to build and maintain a dam and pipe line on the Reserve has been arranged by a meeting between the Water Commissioners and Mr. Ira Yarnell of the United States Forest Service, who has given the city a permit to build and maintain a dam and pipe line, to cut the necessary brush and timber and to use whatever available natural material as is necessary to complete this work. Mr. Yarnell has also agreed to co-operate with the Water Commissioners in regard to keeping the watershed free from pollution.

The pipe line extends over the United States Forest Reserve, Brown Co., H. A. St. Laurent and the Bret Mason properties. Favorable settlement has been made with each of these land owners and the land bought at a nominal price. This line has been cleared of trees, brush and stumps from the Jericho Road to Godfrey Dam, a distance of six miles to a width of twenty-five feet. This work was advertised and let out for bids and done by a local contractor.

The clearing of the flowage above the dam was handled the same way and work is progressing very rapidly to clear the flowage to contour elevation 1,505. This work is also being done by a local contractor.

The final plans and specifications of the dam and pipe line will be completed by Mr. Bean within a few days.

The dam will be of concrete, containing about 460 cubic yards. This dam will be equipped with a log sluice and fish-way, the former being required by the Forest Service and the latter by the New Hampshire Fish and Game Department. This dam will also be equipped with racks, screens, and if necessary, settling basins.

Gravel and stone for this dam can be found within a reasonable distance.

The gravity pipe line, extending from Godfrey Dam and connecting with the existing system, will be 40,400 feet long, consisting of 20-inch, 16-inch and 14-inch high grade wood stave pipe. It will supply 4,500 gallons per minute or the equivalent of eighteen fire hose streams of 250 gallons per minute each.

A high pressure line will be run from the pressure regulating valve to Hillside Avenue at Cedar Street. This line will be of cast iron and will eliminate the pump now in operation for the Ramsey Hill section.

Many of the contractors contemplating bidding on this proposed job have been over this pipe line and are in a position to bid on this work as soon as they receive the final plans.

The whole project has been pushed as rapidly as possible. The Water Commissioners felt that an expenditure of this amount of money should be made only after the most careful study of all conditions and when the final report of the State Board of Health proved favorable. They had matters organized in a manner that actual construction of the project will be under way immediately.

Much credit is due His Honor, the Mayor, and the Board of Water Commissioners for the careful and thorough way this work was handled and to Commissioner Lovett, whose experiences and knowledge of this type of work has been of real value to the Board, Mr. Bean and myself.

Respectfully submitted,

FRANCIS L. BRANNEN,

City Engineer.

SUMMARY OF STATISTICS**For the Six Months Ending December 31, 1926****BERLIN WATER WORKS**

Coos County, N. H.

General Statistics

Population as of July 1, 1926—18,700.

Date of construction—Main construction, 1892.

Source of supply—Bean and Horn Brooks.

Mode of supply—Gravity, two emergency pumps located in industrial plants.

Statistics Relating to Distribution System

- 1 Kind of pipe—Cast iron, steel, wrought iron.
- 2 Sizes—2 to 12 inch.
- 3 Extended during six months—9,690 feet.
- 4 Total now in use—27.87 miles.
- 5 Length of pipe less than 4-inch—13 miles.
- 6 Number of hydrants during six months—Three.
- 7 Number of public hydrants—129.
- 8 Number of private hydrants—75.
- 9 Number of stop gates added during six months—27.
- 10 Number of stop gates now in use—334.
- 11 Number of stop gates smaller than 4-inch—173.
- 12 Range of pressure on mains, low pressure—10 to 120 pounds.
- 13 Range of pressure on mains, high pressure—30 to 140 pounds.

STATISTICS RELATING TO SERVICES, METERS, ETC.**Services**

- 1 Kind of pipe—cast iron, wrought iron, steel and brass.
- 2 Sizes— $\frac{3}{4}$ to 4 inch.
- 3 Added for six months—135.
- 4 Total services now in use—2,204.

Meters

- 5 Number of meters added for 1926—Nine.
- 6 Number of meters now in use—423.
- 7 Percentage of services metered—19.1.

Pumping Statistics

Emergency pump at Brown Company Filter Plant.

Manufactured by D'Olier Centrifugal Pump & Machine Co.

Description—2-stage, centrifugal. Capacity—2,160,000 gallons per 24 hours.

Booster Pumps

1. Location—Corner Guilmette and Spring Streets.

Manufactured by De Laval Steam Turbine Company.

Description — Two single stage centrifugal pumps in series. Pumps from the distribution system into a 40,000 gallon storage tank on the heights.

2. Location — Near junction of Forbush Avenue and Kent Streets.

Manufactured by the Kenny Pump Mfg. Company.

Description—Rotary type. Direct connected to the distribution mains. Pumps into a 20,000 gallon storage tank.

Emergency Purification Equipment

Two Wallace and Tiernan Chlorinators.

One located at Burgess Filter Plant.

One located at Brown Company Boiler Plant.

TOOLS AND IMPLEMENTS

- One Waldo Bros. drilling machine.
- One No. 4 $3\frac{1}{2}$ h. p. double diaphragm gasoline pump.
- Two No. 3 Edison diaphragm pumps.
- One Electric thawing outfit.
- One Tool box on wheels.
- One Force pump.
- One Blasting battery.
- One Transit and rod.
- One Pipe locator.
- Three Service box locators.
- Two Aquaphones.
- One Hauck hydrant thawing outfit.
- One Gasoline pump and tank, capacity 225 gallons.
- One Rope fall.
- One Asbestos lead runner.
- Three Axes.
- One Grindstone.
- One Lead pot and ladle.
- Two Three-wheel pipe cutters.
- Two Vises.
- Four Die stocks and dies.
- One Set scales.
- One Mueller tapping machine.
- Two Hand saws.
- One Hall pipe cutter.
- Three Wheelbarrows.
- Two Jack-hammers.
- Four Sledge hammers.
- Two Striking hammers.
- One Fire pot wind shield.
- Ten Lanterns.
- Thirty Air hammer drills, one to five feet.
- Two Blasting chains.
- One Logging chain.
- Three Cant dogs.
- Twelve Hand drills.
- Four Crow bars.
- Thirty Picks.
- Seventeen Shovels.
- One Bush scythe.
- One Pair snowshoes.

Two Hack saw frames.
Six Diamond points.
Two Cast iron pipe chisels.
Three Two-foot pipe wrenches.
One Eighteen-inch pipe wrench.
Two Fourteen-inch pipe wrenches.
One Two-foot monkey wrench.
Hundred pounds steel.
One set chain tongs.
One W. S. Darley steam boiler.
One Engesser & Schuster Thawing machine.
One Hydrant pump.

Auditor's Report

Berlin, N. H., January 26, 1927.

Board of Water Commissioners,

Berlin, New Hampshire.

Gentlemen:

I have examined the books and accounts of the Berlin Water Works for the year ending December 31, 1926. Cash receipts were checked against deposits, and disbursements were verified by examination of canceled checks and vouchers. The cash in bank was verified on January 18, 1927, from statement rendered on that date by the Guaranty Trust Company. The imprest fund was counted and verified on that date and the certificates of deposit examined and found correct. The list of unpaid accounts as prepared by the Cashier agreed with the records on the card ledger.

The attached schedules show the condition of the Berlin Water Works on December 31, 1926, and results from operations during the past year.

Respectfully submitted,

NORMAN JACOBS,

City Auditor.

Report of Finance Committee

To the Honorable City Council:

Gentlemen:—

The Committee on Finance herewith submits its report for the fiscal year ending January 31, 1927, and the auditor's report which is to be found elsewhere in this volume gives the financial condition of the city.

It is very gratifying to know that there are no overdrafts this year. Our books have been closed with a good substantial balance of cash on hand and no bills outstanding that we know of.

In making the recommendations this year the committee has in mind the needs of the different departments of the city based on our past experience in city affairs.

Band Concerts	\$ 500.00
Board of Health	6,500.00

E. J. KING,

J. ARTHUR SULLIVAN,

JULIUS STAHL,

Finance Committee.

Auditor's Report

To His Honor the Mayor and City Council of the City of Berlin:

I have examined the books and accounts of the Assessors, Tax Collector, City Clerk, City Treasurer and Clerk of Court for the year ending January 31, 1927, and find them in good condition and correctly kept.

ASSESSORS

Total taxes assessed as per inventory book, \$685,048.81, which amount has been committed to the Tax Collector.

TAX COLLECTOR'S ACCOUNTS

U. Duval, for 1920.	
Balance due City Jan. 31, 1926 and 1927	\$ 222.25

Balance due City Jan. 31, 1926 and 1927	5,053.42
U. Duval, for 1922.	
Balance due City Jan. 31, 1926 and 1927	6,912.86
U. Duval, for 1923.	
Balance due City Jan. 31, 1926 and 1927	8,875.41
A. E. Michaud, for 1924.	
Balance due City Jan. 31, 1926	\$ 4,634.87
Collected during 1926	\$ 251.62
Abated during 1926	49.85
	<hr/> \$ 301.47
Balance due the City Jan 31, 1927	\$ 4,333.40
A. E. Michaud, for 1925.	
Balance due City Jan. 31, 1926	\$ 28,041.84
Collected during 1926	\$ 23,036.04
Abated during 1926	3.20
	<hr/> \$ 23,039.24
Balance due the City Jan. 31, 1927	\$ 5,002.60
J. A. Labrie, for 1926.	
Total committed by Assessors	\$685,048.81
Collected during 1926	\$666,266.67

Abated during 1926	2,095.49	
	<hr/>	\$668,362.16
Balance due the City Jan. 31, 1927		\$ 16,686.65
		<hr/>
Total amount of unpaid taxes, Jan. 31, 1927		\$ 47,086.59

RESUME OF TREASURER'S CASH ACCOUNT

Balance on hand, Jan. 31, 1926	\$ 171,405.13
Received during year ended Jan. 31, 1927.....	1,078,861.57
	<hr/>
	\$ 1,250,266.70
Disbursed during year ended Jan. 31, 1927....	1,105,136.02
	<hr/>

Balance on hand Jan. 31, 1927 \$ 145,130.68

The cash was verified Feb. 9, 1927, and found to be fully accounted for by deposits in the Berlin National Bank.

The cash disbursements as entered in the cash book agree with the vouchers and drafts.

The cash receipts from the City, Clerk of Court and Tax Collector have been verified by proper vouchers.

CITY CLERK'S ACCOUNT

Receipts during the year ended January 31, 1927. All of which has been paid to the City Treasurer.

Automobile Taxes	\$ 21,054.83
Dog Taxes	1,010.90
Transfer Account	2,285.05
City Hall	1,078.00
Tax Sales	5,532.65*
Public Works Department	7,928.70
Interest on Tax Sales	197.58*
Cemetery	464.00
Fire Department	167.75
Miscellaneous	13.20
Election Expense	51.00
	<hr/>

Total\$ 39,783.66

*The discrepancy existing between this account and the City Clerk's report is due to the fact that the amount of 5.06 has been included in Interest on Tax Sales which should have been credited to Tax Sales.
